JOURNAL OF APPLIED PROBABILITY

This is an international journal published by the Applied Probability Trust in association with the London Mathematical Society; it contains research papers and notes on applications of probability theory to the biological, physical, social and technological sciences. An annual volume of approximately 1100 pages is published in four issues appearing in March, June, September and December.

EDITORIAL BOARD

Editor-in-Chief

C. C. HEYDE (Columbia University and Australian National University)

Coordinating Editors

N. H. BINGHAM (University of London)
M. F. NEUTS (University of Arizona)

EDITORS

R. J. ADLER (Technion, Haifa)
A. J. BADDELEY (University of Western Australia)
A. D. BARBOUR (University of Zurich)
P. BRÉMAUD (Ecole Polytechnique, Palaiseau)
