

The Shaker Spiritual

DANIEL W. PATTERSON

Between 1780 and 1870 the American Shakers created an enormous body of new folk songs from elements of traditional ballad and dance tunes. Choosing 366 songs from the eight to ten thousand spirituals surviving in Shaker oral tradition and manuscripts, Daniel Patterson offers a delightful compendium that constitutes the largest and most balanced presentation yet made of the Shaker repertory. Transcending a strictly musicological approach, he explores the life history of this clearly bounded and well-documented song tradition. He shows how contrasting song types were shaped by Shaker beliefs and rituals, by the roles of brethren and sisters or the youth and the aged within the communities, and by changes in the membership, structure, and outlook of the Society.

"The finest piece of scholarship in the field of Shaker studies written in this century. It is and will be preeminent in the field."

—Theodore E. Johnson, Director, Shaker Library and Museum, United Society of Shakers

The CHURCHES and the INDIAN SCHOOLS, 1888-1912

By Francis Paul Prucha

This book deals with the tension and conflict between Protestants and Catholics over Indian schools at the end of the nineteenth and beginning of the twentieth centuries. It is the story of the Protestant attack upon federal support of Catholic mission schools and of the competition between the Catholic mission schools and the government Indian schools. Prucha adds significantly to our knowledge of anti-Catholicism in the United States and of Catholic involvement in the political life of the nation.

Politics and Exegesis **Origen and the Two Swords**

Gerard E. Caspary

Ordinarily the medieval exegesis of the two swords of Luke is considered to have emerged in the eleventh century. Caspary demonstrates that the medieval solution had its roots in the third-century exegesis of Origen of Alexandria, and that a political ecclesiology is embedded in the very grammar of Origen's thought.
