

**EDITORIAL**

- 893 Changing perspectives on mood disorders in children**  
Fred R. Volkmar

**REVIEWS AND OVERVIEWS**

- 895 Defining and quantifying the social phenotype in autism**  
Ami Klin, Warren Jones, Robert Schultz, Fred Volkmar, and Donald Cohen
- 909 Contact with mental health and primary care providers before suicide: a review of the evidence**  
Jason B. Luoma, Catherine E. Martin, and Jane L. Pearson

**IMAGES IN NEUROSCIENCE**

- 917 Diseases of the mind and brain: overview**  
Essay by Carol A. Tamminga, Deborah R. Medoff, and Arnold M. Cooper

**CLINICAL CASE CONFERENCE**

- 918 Mania and attention deficit hyperactivity disorder in a prepubertal child: diagnostic and treatment challenges**  
Rosanne C. State, Lori L. Altshuler, and Mark A. Frye

**IMAGES IN PSYCHIATRY**

- 926 Ernst Grünthal, 1894–1972**  
Essay by Peter Kalus, Thomas J. Müller, and Werner K. Strik

**NEW RESEARCH – ARTICLES**

- 927 Two-year prospective follow-up of children with a prepubertal and early adolescent bipolar disorder phenotype**  
Barbara Geller, James L. Craney, Kristine Bolhofner, Michael J. Nickelsburg, Marlene Williams, and Betsy Zimmerman

- 934 Regional patterns of brain activity in adults with a history of childhood-onset depression: gender differences and clinical variability**  
Anita Miller, Nathan A. Fox, Jeffrey F. Cohn, Erika E. Forbes, Joel T. Sherrill, and Maria Kovacs

- 941 Predicting posttraumatic distress in hospitalized trauma survivors with acute injuries**  
Douglas F. Zatzick, Sun-Mee Kang, Hans-Georg Müller, Joan E. Russo, Frederick P. Rivara, Wayne Katon, Gregory J. Jurkovich, and Peter Roy-Byrne

- 947 Smoking and depression: an examination of mechanisms of comorbidity**  
Lisa C. Dierker, Shelli Avenevoli, Marilyn Stolar, and K.R. Merikangas

- 954 Activation in mesolimbic and visuospatial neural circuits elicited by smoking cues: evidence from functional magnetic resonance imaging**  
Deborah L. Due, Scott A. Huettel, Warren G. Hall, and David C. Rubin

- 961 Effect of impaired recognition and expression of emotions on frontocingulate cortices: an fMRI study of men with alexithymia**  
Sylvie Berthoz, Eric Artiges, Pierre-François Van de Moortele, Jean-Baptiste Poline, Stéphanie Rouquette, Silla M. Consoli, and Jean-Luc Martinot

- 968 Syndromes and phenomenological subtypes underlying acute mania: a factor analytic study of 576 manic patients**  
Tetsuya Sato, Ronald Bottlender, Nikolaus Kleindienst, and Hans-Jürgen Möller

- 975 Deficits in sustained attention in schizophrenia and affective disorders: stable versus state-dependent markers**  
Shi K. Liu, Chia-Hui Chiu, Ching-Jui Chang, Tzung-Jeng Hwang, Hai-Gwo Hwu, and Wei J. Chen

- 983 Historical, psychopathological, neurological, and neuropsychological aspects of deficit schizophrenia: a multicenter study**  
Silvana Galderisi, Mario Maj, Armida Mucci, Giovanni Battista Cassano, Giordano Invernizzi, Alessandro Rossi, Antonio Vita, Liliana Dell'Osso, Enrico Daneluzzo, and Stefano Pini

- 991 The general fertility rate in women with psychotic disorders**  
Louise Michele Howard, Channi Kumar, Morven Leese, and Graham Thornicroft

- 998 Multiple idiopathic physical symptoms in the ECA study: competing-risks analysis of 1-year incidence, mortality, and resolution**  
Charles C. Engel, Jr, Xian Liu, Charles Hoge, and Samantha Smith

- 1005 Trends in the treatment of bipolar disorder by outpatient psychiatrists**  
Carlos Blanco, Gonzalo Laje, Mark Olfson, Steven C. Marcus, and Harold Alan Pincus

- 1011 Olanzapine versus divalproex in the treatment of acute mania**  
Mauricio Tohen, Robert W. Baker, Lori L. Altshuler, Carlos A. Zarate, Trisha Suppes, Terrence A. Ketter, Denai R. Milton, Richard Risser, Julie A. Gilmore, Alan Breier, and Gary A. Tollefson

- 1018 Neurocognitive effects of clozapine, olanzapine, risperidone, and haloperidol in patients with chronic schizophrenia or schizoaffective disorder**  
Robert M. Bilder, Robert S. Goldman, Jan Volavka, Pal Czobor, Matthew Hoptman, Brian Sheitman, Jean-Pierre Lindenmayer, Leslie Citrome, Joseph McEvoy, Michal Kunz, Miranda Chakos, Thomas B. Cooper, Terri L. Horowitz, and Jeffrey A. Lieberman

- 1029 Beneficial antipsychotic effects of celecoxib add-on therapy compared to risperidone alone in schizophrenia**  
Norbert Müller, Michael Riedel, Constanze Scheppach, Bernd Brandstätter, Safet Sokullu, Karin Krampe, Markus Ulmschneider, Rolf R. Engel, Hans-Jürgen Möller, and Markus J. Schwarz

**1035 Relationship of the use of adjunctive pharmacological agents to symptoms and level of function in schizophrenia**

Robert W. Buchanan, Julie Kreyenbuhl, Julie M. Zito, and Anthony Lehman

**NEW RESEARCH –  
BRIEF REPORTS**

---

**1044 Are impaired childhood motor skills a risk factor for adolescent anxiety? Results from the 1958 UK Birth Cohort and the National Child Development Study**

Engilbert Sigurdsson, Jim van Os, and Eric Fombonne

**1046 Attention deficit hyperactivity disorder and the gene for dopamine beta-hydroxylase**

Karen Wigg, Gwyneth Zai, Russell Schachar, Rosemary Tannock, Wendy Roberts, Molly Malone, James L. Kennedy, and Cathy L. Barr

**1048 Long-term menstrual and reproductive function in patients with bulimia nervosa**

Scott J. Crow, Paul Thuras, Pamela K. Keel, and James E. Mitchell

**1051 Gender differences in the prevalence of somatic versus pure depression: a replication**

Brett Silverstein

**1053 Higher levels of CSF homovanillic acid in recently abstinent cocaine-dependent patients**

Alec Roy, Jeffrey Berman, Redford Williams, Cynthia Kuhn, and Bienvenido Gonzalez

**1055 Weight gain associated with increased food intake and low habitual activity levels in male adolescent schizophrenic inpatients treated with olanzapine**

Doron Gothelf, Bareket Falk, Pierre Singer, Michal Kairi, Moshe Phillip, Levana Zigel, Irit Poraz, Siegal Frishman, Naama Constantini, Gil Zalsman, Abraham Weizman, and Alan Apter

**1058 Olanzapine-induced weight gain in patients with first-episode schizophrenia: a double-blind, placebo-controlled study of fluoxetine addition**

Michael Poyurovsky, Artashes Pashinian, Irit Gil-Ad, Rachel Maayan, Michael Schneidman, Camil Fuchs, and Abraham Weizman
