### A Comparison of NHS and private low secure units: Unit and patient characteristics – ERRATUM

Khadija Chaudhry, Stephen M Pereira

doi: 10.1017/S1742646408001325, Published Online by Cambridge University Press, 08 May 2009

The Editor-in-Chief would like to apologise for an error in the statistical presentation in the two publications above (Chaudhry & Pereira, 2009a; 2009b).

$p = 0.000$  should have appeared as  $p < 0.001$  throughout.

This error was an oversight of the Editor-in-Chief's office making adjustment before press and not the statistics referees report.
