ANNUAL TOPICAL INDEX TO RESEARCH INVENTORY: VOLUME II*

The Annual Topical Index serves as a guide to scholars seeking a reference to research projects being conducted on subjects of interest to them. The index is arranged alphabetically. A few items have been cross referenced, but on the whole projects have been listed under a single entry. Since the numbering system used in the Research Inventory section for Volume II was progressive, we have not felt the need to refer our readers to a specific issue. However it might be helpful to note that in Volume II items 1–424 were listed in Number One, items 425–811 in Number Two, and items 812–1096 in Number Three.

Where possible, projects have been assigned an historical period. The period is indicated by a letter in parenthesis: *P*—Pre-Columbian; *C*—Colonial; *I*—Independence; *R*—Republican; *M*—Modern. Numbers without letters are for the most part general studies.
