Winter At The Point

Image Size 16 × 24

Print Only	\$75.00
Framed	\$150.00

H.T. Becker's work is perceptive and clear. He uses luminescent techniques that seem to spread a diffused light over the surface of the painting. This combined with the realism in which his work is created evokes a haunting quality. Mr. Becker has won numerous awards and his works are in public and private collections nationally and abroad. Editions limited to 950 signed and numbered by the artist. Printed in full color.

WHAT'S THE BEST HANDWASH/SCRUB? HANDS UP OR HANDS DOWN IT'S

HIBICLENS[®]

(CHLORHEXIDINE GLUCONATE)

It is well established that hand-washing is the most important single procedure in preventing transmission of hospital-acquired infections. HIBICLENS, the only proven antiseptic/antimicrobial, is the best agent available for both personnel handwashing and surgical scrubbing. HIBICLENS

provides the most immediate and prolonged protection against infection, with the best bactericidal "kill rate." And to encourage skin cleansing among hospital personnel, HIBICLENS offers cosmetic acceptability coupled with an excellent safety profile. Gentle to the skin, HIBICLENS is virtually

nonirritating and nonsensitizing, with a low potential for toxicity.

Available as both a liquid and impregnated in a disposable Sponge/Brush, HIBICLENS remains the single most effective antiseptic/antimicrobial skin cleanser for use throughout the hospital.

THE BEST ANTISEPTIC/ANTIMICROBIAL SKIN CLEANSER
