

Edinburgh Journal of Botany is an international journal of plant systematics. Contributions relating to plant systematics and allied subjects, including biodiversity, conservation science and phytogeography, will be considered. Papers reporting the results of research that link traditional and modern techniques are especially welcomed. **Manuscripts should be sent in electronic form** to ejb@rbge.org.uk. All manuscripts will be subject to multiple peer review before publication. Submitted manuscripts should not have been accepted for publication or be under consideration elsewhere. Authors whose mother tongue is not English should if possible have their papers checked by a fluent or proficient English speaker before submission.

There are no page charges. A PDF offprint will be supplied free of charge. Paper offprints may be purchased through the publisher. Colour plates may be included in the online version free of charge; the cost of including colour plates in the printed version will be charged to the author. Halftone plates are free of charge both online and in print.

Text pages should be numbered serially, with the title and abstract on the first. Genus and species names should be italicised and should be followed by the authority when first used in the main text or in diagnoses. SI (metric) units must be used other than in specimen citations where appropriate. Authors are advised not to return loan material of new taxa until papers have been reviewed. Refer to volume 63 onwards to see how nomenclatural details, typification and specimens seen should be formatted.

The **title page** should include the title, the name(s) and address(es) of the author(s), the abstract, a short running title and a few important keywords. Titles do not normally include authors of scientific names. It will be assumed that correspondence should be addressed to the first author unless otherwise indicated. The **abstract** should be concise and informative, indicating what the paper contains without summarising it.

Author abbreviations should precisely follow: BRUMMITT, R. K. & POWELL, C. E. (eds) (1992). *Authors of Plant Names*. Kew: Royal Botanic Gardens, Kew; KIRK, P. M. & ANSELL, A. E. (1992). *Authors of Fungal Names* [Index to Fungi Supplement]. Wallingford: CAB International.

Herbarium abbreviations should follow: HOLMGREN, P. K., HOLMGREN, N. H. & BARNETT, L. C. (eds) (1990). *Index Herbariorum. Part I: The Herbaria of the World* [Regnum Veg. vol. 120]. New York: New York Botanical Garden. Newer entries can be found at <http://sciweb.nybg.org/science2/IndexHerbariorum.asp>.

Journal abbreviations should follow: BRIDSON, G. D. R., TOWNSEND, S. T., POLEN, E. A. & SMITH, E. R. (eds) (2004). *BPH-2: periodicals with botanical content: comprising a second edition of Botanicum-Periodicum-Huntianum*. Pittsburgh: Hunt Institute for Botanical Documentation.

Book title abbreviations should follow: STAFLEU, F. A. & COWAN, R. S. (eds) (1976–88). *Taxonomic Literature*. 2nd edition. 7 vols [Regnum Veg. vols 94, 98, 105, 110, 112, 115, 116]; STAFLEU, F. A. & MENNEGA, E. A. (eds) (1992–). *Taxonomic Literature*. Supplements [Regnum Veg. vols 125, 130, 132], except that all abbreviated words should be capitalised, e.g. Sp. Pl. not Sp. pl.

References in the text should be cited by author and publication date: (Smith, 2009) or ‘as stated by Smith (2009)’. Multiple references should be arranged chronologically. For three or more authors use *et al.* In the **reference list**, references should be in alphabetical order and should appear in the following style:

ZHU, R.-L. & CHENG, X. F. (2008). The status of *Amblyolejeunea* (Lejeuneaceae) from Ecuador and Guadeloupe. *Syst. Bot.* 33: 617–620.

MABBERLEY, D. J. (2008). *Mabberley's Plant-Book: A Portable Dictionary of Plants, Their Classification and Uses*, 3rd edition. Cambridge: Cambridge University Press.

MANN, D. G. & EVANS, K. M. (2007). Molecular genetics and the neglected art of diatomics. In: BRODIE, J. & LEWIS, J. (eds) *Unravelling the Algae: The Past, Present, and Future of Algal Systematics*, pp. 231–265. Systematics Association Special Volume 75. Boca Raton, FL: CRC Press.

Tables should be numbered in arabic numerals and carry a descriptive title. **Figures**, whether line drawings or photographs, should be numbered consecutively in arabic numerals and referred to in the text thus: (Fig. 1), (Figs 2, 3), (Figs 1–4). Line drawings should be scanned in black and white at 600 dpi and photographs at 300 dpi (but correspond with the editor if this should prove problematic) and sent electronically with the manuscript. Please use LZW compression for tif files, remove excess space and elements from around the image, and crop or scale the image to the journal page size (12.5 × 19.5 cm to include caption). A measured scale mark should be included on each illustration to indicate magnification.

CONTENTS

<i>Saxifraga minutissima</i> , a new species from the Garhwal Himalaya, India, and its implications for the taxonomy of the genus <i>Saxifraga</i> (Saxifragaceae). R. J. GORNALL, D. S. RAWAT & ZHUOXIN ZHANG	211
Ectomycorrhizal fungi and non-agaricoid basidiomycetous macromycetes of the Falklands. R. WATLING	219
Observations on the vegetation of Mato Grosso, Brazil. V. Changes in the woody species diversity of a forest in the Cerrado–Amazonian Forest transition zone and notes on the forests of the region. H. A. MEWS, B. S. MARIMON & J. A. RATTER	239
A new species of <i>Salacia</i> (Hippocrateaceae) from South India. P. S. UDAYAN, REGY YOHANNAN, M. S. DEVIPRIYA, V. DEVIPRIYA & A. K. PRADEEP	255
Floristic inventory of one hectare of palm-dominated creek forest in Jenaro Herrera, Peru. R. M. PRICKETT, E. N. HONORIO C., Y. BABA, H. M. BADEN, C. M. ALVEZ V. & C. A. QUESADA	259
<i>Impatiens mohana</i> (Balsaminaceae), a new scapigerous balsam from Wayanad, Western Ghats, India. M. K. RATHEESH NARAYANAN, K. A. SUJANA, V. BALAKRISHNAN, R. MEERA RAJ & N. ANIL KUMAR	281
A new species of <i>Begonia</i> (Begoniaceae) from Peninsular Thailand. T. PHUTTHAI, M. HUGHES & K. SRIDITH	287
<i>Pouzolzia floresiana</i> (Urticaceae), a new species from Flores, Nusa Tenggara Timur (Lesser Sunda Islands), Indonesia. C. M. WILMOT-DEAR & I. FRIIS	293
<i>Debregeasia australis</i> sp. nov. (Urticaceae), with a new synopsis of and a new key to the genus. C. M. WILMOT-DEAR & I. FRIIS	301
Two new species of <i>Amomum</i> (Zingiberaceae) from Western Ghats, India. V. P. THOMAS & M. SABU	313
New chromosome counts in Old World Gesneriaceae: numbers for species hitherto regarded as <i>Chirita</i> , and their systematic and evolutionary significance. F. CHRISTIE, S. BARBER & M. MÖLLER	323
<i>Camellia inusitata</i> (Theaceae), a new species forming a new section (<i>Bidoupia</i>) from Vietnam. G. OREL, P. G. WILSON, A. S. CURRY & LUU HONG TRUONG	347
The Gesneriaceae of Sulawesi V: A new species of <i>Rhynchoglossum</i> and a new combination in <i>Codonoboea</i> . A. KARTONEGORO	357
<i>Book reviews</i>	
<i>John Ray's Cambridge Catalogue (1660)</i> , translated and edited by P. H. Oswald & C. D. Preston	363
<i>Flora of Nepal Volume 3</i> , by M. F. Watson, S. Akiyama, H. Ikeda, C. A. Pendry, K. R. Rajbhandari & K. R. Shrestha	366
<i>An Introduction to the Trees from the North of the Republic of Congo</i> , by David Harris, Jean-Marie Moutsamboté, Emile Kami, Jacques Florence, Samuel Bridgewater & Alexandra Wortley	369

The cover illustration, drawn by Mary Mendum, is of the diminutive alpine plant *Sibbaldia procumbens*, named in honour of one of the Royal Botanic Garden Edinburgh's founders Robert Sibbald. This plant is used, in a stylised form, as the Garden's official logo.
