

[Continued from p. iv of wrapper]

Availability for rats of the lysine in field beans ( <i>Vicia Faba</i> L.). By K. ANANTHARAMAN	5A
The effect of diets containing soya products on the passage of digesta through the alimentary tract of the pre-ruminant calf. By R. H. SMITH, W. B. HILL and J. W. SISSONS	6A
Dietary carbohydrate, exercise and hepatic pyruvate kinase in the rat. By JANET AITKEN and JOHN YUDKIN	7A
Absence of response of some tongue conditions in children to administration of vitamins. By JOHN YUDKIN, D. H. NORMAN, MEGAN E. WILKINSON and W. T. C. BERRY	8A
The value of BP-Protein Concentrate for growing pigs. By R. S. BARBER, R. BRAUDE, K. G. MITCHELL and A. W. MYRES	9A
Response to different levels of supplementation with copper sulphate of diets for growing pigs. By R. BRAUDE, K. G. MITCHELL, M. J. NEWPORT and R. J. PITTMAN	10A
Dietary cyclamate and cyclohexylamine excretion in man. By G. L. S. PAWAN	10A
<i>Two Hundred and Sixteenth Scientific Meeting</i>	
Quantitative aspects of biohydrogenation in the rumen of the lactating goat. By R. BICKERSTAFFE, D. E. NOAKES and E. F. ANNISON	11A
Some effects of feeding supplements of maize meal and sodium bicarbonate upon the digestion of forage cellulose by sheep. By D. F. OSBOURN, R. A. TERRY, S. B. CAMMELL and G. E. OUTEN	12A
The production of amines in the alimentary tract of the pig in relation to dietary <i>lactobacilli</i> , weaning and post-weaning diarrhoea. 1. In vivo studies of intestinal and urinary amines. By P. PORTER, R. KENWORTHY and I. R. HILL	13A
The production of amines in the alimentary tract of the pig in relation to dietary <i>lactobacilli</i> , weaning and post-weaning diarrhoea. 2. In vitro studies of the catabolic activity of the small intestinal microflora. By I. R. HILL, R. KENWORTHY and P. PORTER	14A
Effects of fractions from navy beans ( <i>Phaseolus vulgaris</i> ) on germ-free and conventional chicks. By D. HEWITT, MARIE E. COATES, M. L. KAKADE and I. E. LIENER	15A
The effect of intestinal coccidiosis upon energy utilization in the chick. By A. H. SYKES	16A
Diet, leisure activity and skinfold measurements of sedentary men. By JEAN W. MARR, JULIA GREGORY, T. W. MEADE, M. R. ALDERSON and J. N. MORRIS	17A
The effect of 10 weeks consumption of a 75% sucrose diet on the incorporation of [U- <sup>14</sup> C]fructose into the serum glycerides of male and female baboons. By M. H. JOURDAN	18A
The body fat in a random sample of adolescent schoolchildren in Glasgow. By J. V. G. A. DURNIN and M. M. RAHAMAN	19A
Vitamins B and C and tongue signs in adolescents. By J. P. SAUNDERS, D. H. NORMAN and W. T. C. BERRY	19A
Absence of effect of thiamine and other vitamins on duration of myotatic response. By T. P. EDDY, J. P. SAUNDERS and W. T. C. BERRY	20A

## INDEX OF AUTHORS

## FORTHCOMING ISSUE

It is hoped to publish in the next issue of the *Proceedings of the Nutrition Society* reports of symposia on Nutritional Problems in the Tropics (16 April 1970) and The Future of Animals as Sources of Human Food (25 April 1970), and abstracts of communications to be presented at meetings on 20 February, 20 March and 29 May 1970.

# Proceedings of the Nutrition Society

CONTENTS OF VOL. 29, No. 1, MAY 1970

## SYMPOSIUM PROCEEDINGS

### *Two Hundred and Twelfth Scientific Meeting*

#### PLANT BREEDING AND NUTRITION

	PAGE
Chairman's introduction. By G. D. H. BELL	1
Nutritional considerations in attempts to change the chemical composition of crops. By K. J. CARPENTER	3
The physiology of the synthesis of amino acids and their movement into the seed proteins of plants. By B. F. FOLKES	12
The breeding of wheat and maize with improved nutritional value. By V. A. JOHNSON, P. J. MATTERN and J. W. SCHMIDT	20
The prospects of breeding barley, wheat and oats to meet special requirements in human and animal nutrition. By R. N. H. WHITEHOUSE	31
Practical problems concerning the marketing of cereals with improved protein value. By ROGER MOSSBERG	39
The evolutionary diversity of the pulses. By J. B. HUTCHINSON	49
Toxic constituents of plant foodstuffs. By IRVIN E. LIENER	56
Factors affecting the limitation of the cultivation of grain legumes in tropical territories. By W. R. STANTON	57
The evaluation of the field bean ( <i>Vicia Faba</i> L.) in animal nutrition. By H. E. CLARKE	64
The development of field beans as a crop in Britain. By D. A. BOND	74
Concluding remarks. By K. L. BLAXTER	79

### *Two Hundred and Thirteenth Scientific Meeting*

#### AUTOMATED ANALYSIS OF NITROGENOUS COMPOUNDS

Total nitrogen determination. By A. FLECK	81
Influence of transcription techniques on the precision of autoanalyser assays. By W. J. TILSTONE and A. FLECK	85
Determination of nitrogen in trichloroacetic acid filtrates of milk using the Technicon AutoAnalyzer. By E. J. HINDLE and J. V. WHELOCK	89
Nitrogen balance by Technicon AutoAnalyzer. By SHEILA C. JACOBS and CHRISTIAN G. THIN	90
Problems associated with the automated analysis of mixtures of amino acids. By J. DAVIDSON and W. R. HEPBURN	91
The determination of tryptophan in biological materials. By R. A. EVANS, M. T. NADEEM CHAUDRY and A. G. STEPHENS	103
Automated analysis of peptides. By W. BOLTON, J. M. McNAB and J. C. BLAIR	103
Determination of total amino acid concentrations in plasma. By J. S. SLATER and E. JOAN DUNNETT	104
Identification and estimation of ninhydrin-positive substances in physiological fluids. By G. LEAF	105
Automated clinical chemistry. By T. P. WHITEHEAD	106
The maintenance of analytical quality in the automated laboratory. By S. C. FRAZER	106
Recent advances in amino acid analysis. By ALAN J. THOMAS	108

### *Two Hundred and Fifteenth Scientific Meeting*

#### THE USE OF THE COMPUTER IN NUTRITION

The first computer at a nutritional research institute: how its use has evolved. By A. W. BOYNE	110
Diet assessment and formulation in human nutrition. By D. S. MILLER and PAMELA MUMFORD	116
Farm policies for the feeding of livestock. By S. C. THOMPSON	123
Logging data in digital form. By S. W. R. COX	129
The impact of computer analysis on the design of dietary surveys. By ELAINE C. TAYLOR	135
Statistics and computers—a worked example. By R. THOMPSON	141

### *Two Hundred and Seventeenth Scientific Meeting*

#### NUTRITIONAL PROBLEMS OF URBAN COMMUNITIES

Chairman's introduction. By W. R. AYKROYD	148
Food in nineteenth century England: nutrition in the first urban society. By D. J. ODDY	150
The growth and nature of urban areas in developing countries. By G. L. BURKE	157
The social, economic and marketing aspects of diffusing low-cost protein-enriched foods in urban Africa and the Third World. By T. L. BLAIR	164
Food supplies for urban populations in developing countries. By F. AYLWARD	169
Protein deficiency in urban and rural areas: its measurement, size and nature. By P. V. SUKHATME	176
Factors affecting the nutritional status of urban communities. By R. U. QURESHI	183

## ABSTRACTS OF COMMUNICATIONS

### *Two Hundred and Fourteenth Scientific Meeting*

The absorption of micellar lipid by the small intestine of the sheep. By C. P. FREEMAN and D. E. NOAKES	1A
The relationship between sucrose intake, plasma insulin and platelet adhesiveness in men with and without occlusive atherosclerosis. By JOHN YUDKIN, STEPHEN SZANTO and V. V. KAKKAR	2A
Dietary sucrose and the behaviour of blood platelets. By STEPHEN SZANTO and JOHN YUDKIN	3A
Ulceration of the colon in guinea-pigs fed carrageenin. By J. WATT and R. MARCUS	4A
The effect of undernutrition and subsequent rehabilitation on the growth and chemical composition of the cerebellum, brainstem and fore-brain of the rat. By J. W. T. DICKERSON and JENNIFER JARVIS	4A
A study lasting 42 days on 'overfeeding' of six young men. By J. V. G. A. DURNIN and N. NORGAN	5A
