NEW
Horizontal-Entry Sharps Containers
—Autoclavable

- Handy side-mounted control knobs-better protect operator's hand when discarding sharps.
- Butterfly closure-prevents overfilling.
- Easier sealing closure provides for safe transport.
- Cost-effective horizontal entry-automatically stacks discarded items for maximum use of space.
- Extra-wide opening-permits disposal of larger sharps.
- Convenient needle notches-facilitate faster removal of needles from tube holders and reusable syringes.
- Choice of two wall mounting systems-attractive marbled beige locking wall cabinet or a bracket hanger with optional security lock.
- Nest in storage-easier to assemble-available in 4 and 8 quart size.

Resistant Sharps Container that's Right for Every Situation*

NEW
High Volume Sharps Container

- Large 5 gallon capacity with larger round opening-meets the special needs of most high volume areas.
- Nest in storage-easier to assemble.
- Leakproof-can more safely contain fluids.

NEW
Chemotherapy Sharps Containers

- Leakproof lid-contains fluids for safe transport; prevents splash out of contents.
- Larger, wide-mouth opening-accepts most large I.V. units and administration kits.
- Nest in storage-easier to assemble-available in 5 and 7 gallon size.

"HANDS-OFF"

**INJECTOR
Tubex®**

(closed injection system) Ayerst

TUBEX®, the unique, *safer*, hands-off injector that puts you farther from the needle and cartridge than any other injection system.

There's no touching.. .shaking.. .manipulation of cartridge or needle. Just twist and drop.

Nurses preferred TUBEX almost 3:1 for the prevention of accidental needle stick injuries in a study comparing TUBEX Injector and Carpuject®.*1 Which is one more reason to

adopt TUBEX- the injection system designed as if your life depended on it.
