# European Journal of Sociology

## **An International Journal from Europe...**

If you are a social scientist with an interest in sociology, social psychology, social anthropology, or comparative history, **European Journal of Sociology** is a scholarly journal of fundamental importance.

This leading journal, published twice a year by Cambridge University Press, continues and confirms the well-established European tradition of historical and comparative sociology. As well as exploring these major strands of sociology, **European Journal of Sociology** also includes important contributions in social anthropology and social psychology.

## **Current European Concerns...**

The tremendous economic and political changes which are taking place in Europe are likely to shape much of the agenda of the social sciences for the rest of the century. **European Journal of Sociology** pays academic attention to the transformations in process. The **Journal**:

- ◆ discusses the economic, social and political conditions that are influencing factors for development
- ◆ identifies the dilemmas facing modern reformers
- ◆ reflects on the insights that classical writers of political and social theory have offered markets, political institutions and the class struggle, in order to focus on current questions.
