ANTHOLOGIES

HENRY E.  
**SIGERIST**  
ON THE  
HISTORY  
OF MEDICINE

*edited by Félix Martí-Ibáñez, M.D.*

*foreword by  
John F. Fulton, M.D.*

In twenty-seven carefully selected essays and lectures, collected in this anthology for the first time in English, Dr. Sigerist provides an illuminating view of the men and the events that have shaped the present and will affect the future of medicine and civilization. The brilliant and stimulating writings contained in this long-awaited anthology are the essence of the Sigerist ideas, concepts, and theories on the history of medicine. Whether focusing on Hippocrates, Paracelsus in the Light of Four Hundred Years, The Physician's Profession Through the Ages, Bedside Manners in the Middle Ages, or The Philosophy of Hygiene, Sigerist reveals the wit, scholarship, and originality that made him one of the greatest medical historians of our time.

HENRY E.  
**SIGERIST**  
ON THE  
SOCIOLOGY  
OF MEDICINE

*edited by Milton I. Roemer, M.D.*

*foreword by  
James M. Mackintosh, M.D.*

The scope and depth of Sigerist's theories on the sociology of medicine have never been more clearly shown than in this first English-language anthology of his medico-sociological writings. These thirty-one selected essays are truly representative of Sigerist as humanist and social reformer. Because of Sigerist's originality and scholarship, these writings remain fresh, powerful and deserving of a place with the great medico-historical literature of all time. All of these essays, whether they deal with War and Medicine, The Special Position of the Sick, Socialized Medicine, or Current Unrest in the Medical World, reflect the mind and heart of a great man who strove to turn social philosophy into constructive social action.

406 pages Cloth Bound \$6.75
