CNS SPECTRUMS

EDITOR-IN-CHIEF: **STEPHEN M. STAHL**

 THE JOURNAL OF THE
**Neuroscience
Education Institute**

 **CAMBRIDGE
UNIVERSITY PRESS**

Want some CME with that?

STAHL

MASTERCLASS

- An online educational program in core areas of psychiatry with interactive readings, short lectures, animations and case studies

- Self-testing and opportunities to claim formal CME credits, all taken at a self-directed speed

- Written and moderated by experts in the field from the Dr. Stahl's Neuroscience Education Institute and the University of Cambridge

CNS SPECTRUMS

CONTENTS

BRAINSTORMS

Beyond the dopamine hypothesis of schizophrenia to three neural networks of psychosis: dopamine, serotonin, and glutamate

Stephen M. Stahl 187

GUEST EDITORIAL

The history and scope of neuropsychiatry

Michael Trimble 192

LETTER TO THE EDITOR

Additional occupational therapy considerations for functional neurological disorders: a potential role for sensory processing

Jessica Ranford, David L. Perez and Julie MacLean 194

REVIEW ARTICLES

The forsaking of the clinical EEG by psychiatry: how justified?

Nash N. Boutros 196

Occupational therapy for functional neurological disorders: a scoping review and agenda for research

Paula Gardiner, Lindsey MacGregor, Alan Carson and Jon Stone 205

Gilles de la Tourette syndrome as a paradigmatic neuropsychiatric disorder

Andrea E. Cavanna 213

The neurological examination adapted for neuropsychiatry

Sheldon Benjamin and Margo D. Lauterbach 219

ORIGINAL RESEARCH

Pimavanserin for the treatment of Parkinson's disease psychosis: number needed to treat, number needed to harm, and likelihood to be helped or harmed

Leslie Citrome, James C. Norton, Kathy Chi-Burris and George Demos 228

Editor-in-Chief

Stephen M. Stahl, Adjunct Professor of Psychiatry at the University of California San Diego, USA;
Honorary Visiting Senior Fellow at the University of Cambridge, UK.

Field Editors

Jagannadha Avasarala, University of South Carolina School of Medicine, USA
Joseph F. Goldberg, Icahn School of Medicine at Mount Sinai, USA

Managing Editor

Lisa Arrington, Cambridge University Press (larrington@cambridge.org)

Aims and Scope

CNS Spectrums covers all aspects of the clinical neurosciences, neurotherapeutics and neuropsychopharmacology, particularly those pertinent to the clinician and clinical investigator. The journal features focused, in-depth reviews, perspectives and original research articles. New therapeutics of all types in psychiatry, mental health, and neurology are emphasized, especially first in man studies, proof of concept studies and translational basic neuroscience studies. Subject coverage spans the full spectrum of neuropsychiatry, focusing on those crossing traditional boundaries between neurology and psychiatry.

Submitting Manuscripts to *CNS Spectrums*

All submissions to *CNS Spectrums* should be prepared in accordance with the instructions for authors and in the style of the Journal. Manuscripts should be submitted through the dedicated *CNS Spectrums* ScholarOne Manuscripts website: <http://mc.manuscriptcentral.com/cnsspectr>

CNS Spectrums will consider and encourage the following types of articles for publication: **Reviews**—The review article is a comprehensive article summarizing and synthesizing the literature on various topics presented in a scholarly and clinically relevant fashion; **Perspectives**—The perspective article is a type of review that is a short, focused summary of a single recent advance, a sort of spotlight on the topic, which could be for example, a single point hypothesis or a novel model. It can stimulate debate and new research. **Meta-guidelines**—A meta-guideline is a “guideline of guidelines” put together by several leading figures in a field in which there are multiple competing guidelines that require synthesis and updating; **Original Research**—Reports the results of a clinical study and contains original research; the journal will also include **Brainstorms** and **Editorials** that shall be commissioned or written by the Editor-in-Chief.

Instructions for Contributors

The Instructions for Contributors are available on the Cambridge Journals Online web site at: <http://journals.cambridge.org/CNSifc>

Indexing

CNS Spectrums is indexed by *Index Medicus*/MEDLINE and Web of Science (Thomson Reuters) as well as appearing in the annual Journal Citation Report. Introduced in 1996, the journal was acquired in whole by Cambridge University Press in November of 2011.

Subscriptions

Institutional print and electronic: £520/\$824; Institutional electronic only: £395/\$631.
