ANTE LIMEN

A new Latin Book for Younger Beginners,
based upon *Limen*. Compiled under the
guidance of Professors WALTERS and CONWAY

By R. H. REES, B.A.,

Assistant Mistress at Ladybarn House School.

Ante Limen has been written in response to the requests of many teachers who approved of the methods of *Limen*, but desired a book on similar lines for younger beginners. The lines of the parent book have been closely followed, though the arrangement is different: the Reading Lessons, Exercises and Vocabularies have been arranged in three parallel divisions. The ground covered is, roughly speaking, up to the end of the regular declensions, and the active verb without the subjunctive.
