

### **Human Psychopharmacology Measures and Methods, Volumes One and Two**

Edited by I. HINDMARCH, Human Psychopharmacology Research Unit, University of Leeds, UK and P.D. STONIER, Medical Department, Hoechst UK Ltd, Middlesex, UK

Containing papers by distinguished international authors, these books cover a range of topics and reflect the diversity of the discipline of Human Psychopharmacology.

In *Volume 1* subjects discussed include:- Assessment of Psychopathology; Construct Validity of Rating Scales for Melancholia; The Conceptual Basis of Anxiety; The Assessment of Stress; Psychomotor Tests in Psychopharmacology; The Assessment of Human Information-Processing Abilities in Psychopharmacology.

In *Volume 2*, the importance of measurement is illustrated when internationally respected researchers provide an insight into the way comparative pharmacology has developed and discuss the relevance of the theoretical basis of measurement scales and the range and scope of currently available tests.

#### **Volume One**

0471912387 254pp April 1987 £28.95/\$60.00

#### **Volume Two**

0471912557 approx 310pp January 1989 approx £35.50/\$73.50

### **Psychopharmacology and Reaction Time**

Edited by I. HINDMARCH, Human Psychopharmacology Research Unit, University of Leeds, UK, B. AUFDEBRINKE, Schering Research Laboratories, Berlin, FRG and H. OTT, Schering Research Laboratories, Berlin, FRG

This book emphasizes the wide range of RT applications in situations in psychopharmacology. Contributors consider both methodological and theoretical aspects of RT studies and provide illustrations of the use of RT in both experimental and pragmatic contexts.

0471918180 212pp March 1988 £24.50/\$52.50

### **Causes, Coping and Consequences of Stress at Work**

Edited by C.L. COOPER, Manchester School of Management, University of Manchester Institute of Science and Technology, UK and R. PAYNE, Manchester Business School, University of Manchester, UK

This book brings together leading international researchers in the field of occupational stress. Each author focusses on recent research findings, theories, methodological issues and actions for coping with stress at work which are relevant to individuals and to organizations.

0471918792 430pp July 1988 £29.95/\$70.00

### **International Review of Industrial and Organizational Psychology 1988**

Edited by C.L. COOPER and I.T. ROBERTSON, University of Manchester Institute of Science and Technology, UK

The third in a series of annual reviews, this volume provides an up-to-date and authoritative guide to important areas and developments in the field of Industrial and Organizational Psychology.

047191844X 352pp May 1988 £35.50/\$82.50

### **The Origins of Modern Psychiatry**

Edited by C. THOMPSON, Charing Cross and Westminster Medical School, London, UK

This volume covers some of the outstanding contributions made to psychiatry during the formative years 1856 to 1938. All the articles included are concerned with controversial subjects and are related to scientific, ethical and social dilemmas.

0471915815 290pp November 1987 £31.95/\$67.50

### **Biological Perspectives of Schizophrenia**

#### **Dahlem Life Sciences Research Report 40**

Edited by H. HELMCHEN and F.A. HENN

The purpose of this book is to examine the biological processes involved in the etiology and pathogenesis of schizophrenia, to define gaps in our knowledge, and to provide directions for future work. Genetic and nongenetic factors, structural and functional deviations, and neurotransmitters are comprehensively reviewed.

0471916838 368pp October 1987 £42.50/\$87.50

### **Dementia Its Nature and Management**

M. FRASER, University College Hospital and Friern Hospital, London, UK

Written by a consultant in psychogeriatrics, this practical book discusses the causes, diagnosis and treatment of senile and pre-senile dementia, with particular emphasis on Alzheimer's disease. The author does not deal in hopes and fears, but simply asks, "What can be done about dementia in the 1980s and 1990s?"

0471915483 252pp September 1987 £21.50/\$44.50

Books published by the American Psychiatric Press Inc. are now available throughout the world, except in North America, from Cambridge University Press.

## The American Psychiatric Press Textbook of Psychiatry

Edited by J. A. TALBOTT, R. E. HALES and S. C. YUDOFKY

Contributions from 55 eminent specialists have been skillfully edited to provide this summary of the latest research and clinical findings in the field of psychiatry. By presenting the most up-to-date research findings in a readable fashion, while emphasising their clinical relevance, the Textbook represents a major contribution to psychiatric education.

1988 1324 pp.

0 521 35413 7 £40.00 net

### American Psychiatric Glossary Sixth Edition

Compiled and edited by E. M. STONE

This essential reference tool has been updated to include the latest developments in psychiatry and the revised nomenclature of the *DSM-III Revised*. Provides the most complete and current compendium of psychiatric terminology available.

1988 143 pp.

0 521 36414 0 Hc £20.00 net  
0 521 36707 7 Pb £6.95 net

### New Concepts in Psychoanalytic Psychotherapy

Edited by J. MUNDER ROSS  
and W. A. MYERS

Researchers are currently drawing on classical psychoanalysis and psychodynamic psychotherapy in therapy in a way far removed from the analyst's couch. Here, the editors provide some guidelines to basic developmental issues, applications, and current controversies, helping to clarify theoretical and research concerns as well as therapeutic ones.

1988 312 pp. 0 521 36416 7 £25.00 net

### Psychiatry Update

The American Psychiatric Association  
Annual Review, Volume 7

Edited by A. J. FRANCES and R. E. HALES

This new volume focusses on findings in the areas of: panic disorders; unipolar depression; suicide; electroconvulsive therapy; and cognitive therapy.

1988 697 pp. 0 521 36418 3 £35.00 net

### Limit Setting in Psychiatric Clinical Practice

S. A. GREEN et al

Where standard techniques fail to halt regressive acting-out and the patient, therapist, or therapy is threatened, a limit must be set. This book offers a definition of limit setting; examines the theoretical foundations and the transference relationship; and considers the special problems of hospitalized patients.

1988 144 pp. 0 521 35008 5 £20.00 net

### Anxiety and Depressive Disorders in the Medical Patient

L. R. DEROGATIS and T. N. WISE

The authors take a new look at how to conceptualize the psychological and biological aspects of anxiety and depression, how to assess them in patients, and how and when to intervene therapeutically.

c. 256 pp. 0 521 36417 5 £20.00 net  
Forthcoming (February 1989)

### Cerebral Hemisphere Function in Depression

Edited by M. KINSBOURNE

Here, the editors aim to clarify the functioning of brain areas and neurotransmitters as interacting systems that both generate change in mental state and react to changed mental state.

1988 208 pp. 0 521 36415 9 £18.50 net

# CAMDEX

The Cambridge Examination for Mental Disorders of the Elderly

SIR MARTIN ROTH, F. A. HUPPERT, E. TYM and C. Q. MOUNTJOY

- a new interview schedule for the diagnosis and measurement of dementia
- easy-to-use, portable and self contained
- comprehensive – combines visual and verbal tests
- acceptable to patients, with high inter-rater reliability
- sensitive to differentiating organic and non-organic disorders
- detects even low levels of cognition impairment

Devised and tested by Sir Martin Roth and his colleagues, this package comprises a standard assessment and diagnosis of senile dementia. The boxed set includes: a structured clinical interview with the patient; a mini neurological battery comprised of objective cognitive tests; and a structured interview with an independent informant for detailed background information.

1988 0 521 35161 8 £50.00 net

## The Measurement of Moral Judgment

Volume 1 Theoretical Foundations and Research

Volume 2 Standard Issue Scoring Manual

Edited by ANNE COLBY and the late LAWRENCE KOHLBERG

In collaboration with A. ABRAHAMI, D. CANDEE, J. GIBBS, A. HEWER, A. HIGGINS, K. KAUFFMAN, M. LIEBERMAN, M. NISAN, C. POWER, J. REIMER, D. SCHRADER, J. SNAREY, B. SPEICHER and M. TAPPAN.

This long-awaited two-volume set constitutes the definitive presentation of the system of classifying moral judgment built up by Lawrence Kohlberg and his associates over a period of twenty years. Volume 1 reviews Kohlberg's stage theory, and the large body of research on its significance and utility. Volume 2, in special user-friendly format, includes three alternative functionally equivalent forms of the scoring system. Researchers in child development and education will find *The Measurement of Moral Judgment* an indispensable resource.

## An Introduction to Psychiatric Research

R. E. GORDON, C. J. HURSCH  
and K. K. GORDON

With increasing pressure on psychiatrists to demonstrate that their treatment is appropriate and cost effective this book provides the tools for complying with these demands as well as undertaking other scientific enquiries. The authors explain the statistics and research methods used in over 90% of studies and enable readers to analyze literature and answer their own research questions.

276 pp. 1988 0 521 35094 9 £25.00 net

## New Interventions for Children and Youth

Action Research Approaches  
ROBERT N. RAPOPORT

The author looks at ten case studies that represent new approaches to mental health problems in young people. Rather than suggesting ways to change the environment of the individual, these projects examine the problems of adapting to the society in which they must live. The successful collaboration between practitioners and scientific researchers in these case studies is also explored.

275 pp. 1988 0 521 34122 1 £27.50 net

## Bereavement and Health

The Psychological and Physical Consequences of Partner Loss

W. STROEBE and M. S. STROEBE

Does the concept of a 'broken heart' have any basis in reality? *Bereavement and Health* examines scientific evidence bearing on the question of whether persons who have lost a loved one suffer detriments to their mental and physical health. The authors review the empirical research, discuss theoretical contributions and evaluate intervention programmes to reduce the risk of ineffective coping.

288 pp. 1987 0 521 24470 6 Hc £27.50 net  
0 521 28710 3 Pb £9.95 net

## The Child's World of Illness

The Development of Health and Illness Behaviour

SIMON WILKINSON

How do I decide, and convince others, that I am ill? This book explores how the languages of illness are used to present our discomforts to others. By interviewing children between the ages of three and thirteen the author has examined the introduction of illness and the effect this has on health education.

## NOTES FOR CONTRIBUTORS

**PAPERS** Papers for publication should be addressed to the Editor, Professor Michael Shepherd, Institute of Psychiatry, De Crespigny Park, Denmark Hill, London SE5 8AF. Contributors should send at least three copies of the text, tables, and figures. Copies other than the first may be xeroxed. The S.I. system should be adopted for text and figures. A short synopsis of about 50 words should be provided at the beginning of each article. Foreign quotations and phrases should be followed by a translation. If necessary, guidelines for statistical presentation may be found in: Altman, D. G., Gore, S. M., Gardner, M. J. & Pocock, S. J. (1983). Statistical guidelines for contributors to medical journals. *British Medical Journal* **286**, 1489–1493.

Submission of a paper will be held to imply that it contains original work that has not been previously published and that it is not being submitted for publication elsewhere.

In addition to longer articles, the Editor is prepared to accept preliminary and brief communications of between 1500 and 2500 words.

Manuscripts must be typewritten on one side of the paper in double-spacing with wide margins throughout, including references. The following information must be given on a single separate sheet: (1) title and short title for running head (not more than 100 characters); (2) authors' names, and (3) department in which work was done. Footnotes on the same sheet should list: (i) the authors' present addresses if different from departments in which work was done; (ii) name and address of the author to whom correspondence should be addressed; (iii) receipt of grants. Authors who would like a reprint address to be printed should include this on their manuscript.

**REFERENCES** (1) In the text these should follow the Harvard system – that is, name followed by date: Brown (1970). If there are more than two authors the first author's name followed by *et al.* should be used, even the first time that the reference appears. (2) The list of references should be typed in alphabetical order on a separate sheet and should appear as follows: Brown, J., Williams, E. & Wright, H. (1970). Treatment of heroin addiction. *Psychological Medicine* **1**, 134–136. Journal titles should be given in full.

Books should be cited as follows: Brown, J. (1970). *Psychiatric Research*. Smith: Glasgow.

Articles from edited books should be cited as follows: Brown, G. W. (1974). Meaning, measurement and stress of life events. In *Stressful Life Events: Their Nature and Effects* (ed. B. S. Dohrenwend and B. P. Dohrenwend), pp. 217–244. John Wiley: New York.

**ILLUSTRATIONS** Only essential figures and tables should be included. *Photographs* Unmounted photographs on glossy paper should be provided. Magnification scales, if necessary, should be lettered on these. Where possible, prints should be trimmed to column width (i.e. 70 mm). *Diagrams* These will usually be reduced to 70 mm wide. Lettering should be in either Letraset or stencil, and care should be taken that lettering and symbols are of comparable size. Illustrations should not be inserted in the text, they should be marked on the back with figure numbers, title of paper, and name of author. All photographs, graphs, and diagrams should be referred to as figures and should be numbered consecutively in the text in Arabic numerals. The legends for illustrations should be typed on a separate sheet. *Tables* Tables should be numbered consecutively in the text in Arabic numerals and each typed on a separate sheet.

**PROOFS AND OFFPRINTS** Page proofs will be sent to the senior author. Corrections other than printer's errors may be charged to the author. Fifty offprints of each paper are supplied free; additional offprints are available according to a scale of charges if they are ordered when the proof is returned.
