

	PAGE
Lignin as an inert marker in studies of ruminant digestion. By P. PORTER	vi
The performance of chicks on a diet containing autoxidized beef fat. By J. L. L'ESTRANGE, K. J. CARPENTER, C. H. LEA and L. J. PARR	vii
Intakes and excretions of iron, copper and zinc by babies in the 1st week after birth. By ELSIE M. WIDDOWSON and PATRICIA A. CAVELL	viii
The intakes and excretions of calorific constituents by babies. By D. A. T. SOUTHGATE and IRENE M. BARRETT	viii
The fate of oral riboflavine. By E. C. OWEN and L. DZIALOSZYNSKI	ix
The fate of an oral dose of riboflavine in the dog. By E. C. OWEN and L. DZIALOSZYNSKI	ix
The use of homocysteine in the estimation of ascorbic acid in urine. By A. N. HOWARD and B. J. CONSTABLE	x
Nitrogen metabolism in guinea-pigs receiving low daily intakes of ascorbic acid. By J. R. EVANS, R. E. HUGHES and R. Z. THOMAS	xi
Ruminal lypolysis and hydrogenation in the sheep. By I. H. BATH and K. J. HILL ..	xii

INDEX OF AUTHORS

Arnold, P. W. .. 46	Hill, K. J. xii	Parr, L. J. vii

SYMPOSIUM PROCEEDINGS

One Hundred and Sixty-sixth Scientific Meeting

THE EFFECT OF SOILS, FERTILIZERS AND ENVIRONMENT ON THE YIELD AND NUTRIENT CONTENT OF PLANTS

	PAGE
The effect of soils, fertilizers and environment on the yield and nutrient content of plants: Chairman's opening remarks. By R. G. BASKETT	1
The ultimate limits of crop production. By J. N. BLACK	2
Irrigation as a factor in boosting food and fibre production. By H. OLIVIER	8
Soil and plant nutrient content in relation to crop yield. By C. BOULD	21
Effects of organic manures on soils and crops. By A. H. BUNTING	29
The chemical composition of grasses in relation to agronomical practice. By R. WAITE	38
The effect of soils, fertilizers and environment on the yield and nutrient content of plants: summing-up. By P. W. ARNOLD	46

One Hundred and Sixty-seventh Scientific Meeting

MAJOR ELEMENTS IN NUTRITION

Variations of strength of vertebrae with age. By G. H. BELL	49
Calcium intake and calcium requirement of man. By B. E. C. NORDIN	49
Calcium-endocrine relationships in the laying hen. By T. G. TAYLOR	49
The importance of hypocalcaemia in the development of hypomagnesaemic tetany. By R. G. HEMINGWAY and N. S. RITCHIE	54
Renal mechanisms of potassium depletion. By ANNE T. LAMBIE	63
The role of the kidney in sodium and potassium balance in the cow. By E. C. PICKERING	73

One Hundred and Sixty-eighth Scientific Meeting

AVAILABILITY OF MINERALS IN FOODS OF PLANT ORIGIN

Mineral availability and techniques for its measurement. By A. THOMPSON	81
Availability of some trace elements. By M. KIRCHGESSNER	89
Factors which affect the availability of magnesium. By A. D. CARE	99
The availability of the calcium and phosphorus of plant materials for animals. By T. G. TAYLOR	105
Bread and other foods of plant origin as a source of iron. By P. C. ELWOOD	112
Relative availability of strontium in flour and milk. By T. E. F. CARR, G. E. HARRISON, J. F. LOUITT and ALICE SUTTON	120

ABSTRACTS OF COMMUNICATIONS

One Hundred and Sixty-ninth Scientific Meeting

Barley supplementation and voluntary feed intake of fattening beef cattle under restricted and unrestricted grazing conditions. By R. S. MUSANGI, W. HOLMES and J. G. W. JONES	i
Dietary carbohydrate and brain lipids in young mammals. By V. SCHWARZ, G. H. LYNN and S. N. VARMA	ii
Radio-chromium sesquioxide as an intestinal marker in sheep and pigs. By T. K. EWER and H. F. SASSOON	ii
Body composition and the long-term nitrogen balance study of growing pigs. By D. W. ROBINSON	ii
Endocrine factors and the response of pigs to amino acid supplementation. By D. W. ROBINSON	iii
Vascular changes in bone in calcium-deficient kittens. By F. KAYANJA, M. G. SCOTT and P. P. SCOTT	iv
The effect of 5-day diets of various carbohydrates on the serum lipids in men. By I. MACDONALD	iv
The effect of mild cooking on the nutritive value of wheat. By C. K. MILNER	v
