## Administrative Law

H. W. R. Wade

In this new edition, Professor Wade's well-known work has been expanded into a full-length treatment. Most of the text has been rewritten and there has been much reorganization. The book has now outgrown the format of the Clarendon Law series in which the first three editions appeared, and in which it achieved a wide circulation in the English-speaking legal world. It is the first full-scale work covering the whole subject of administrative law. Fourth edition £15 paper covers £8.50

## Doctors' Commons

**A History of the College of Advocates  
and Doctors of Law**

G. D. Squibb

Beginning as a club for clerical lawyers and their friends, the Society colloquially known as Doctors' Commons developed into the equivalent of an Inn of Court for the lay judges and advocates of the ecclesiastical and admiralty courts. This work, based on the Society's surviving records, traces its history from its beginnings in the fifteenth century to its dissolution in the nineteenth. Illustrated £10

## The Concept of Law

H. L. A. Hart

When it was first published in 1961, this book was described by the *Juridical Review* as 'a strikingly bold and original contribution to jurisprudential thought'. It is now made available for the first time in paper covers; the cloth edition remains available at £6. Paper covers £2.95  
*Clarendon Law Series*

## The Constitutional Law of Jamaica

Lloyd G. Barnett

Jamaica won independence in 1962. This book studies how the principles of cabinet government were evolved and adapted in her administration. It examines the Independence Constitution and its practical operation in detail against the broad historical, political, and socio-economic background of the country, and provides analogy and contrast with the constitutional law and experience of other Commonwealth territories and of America. £18

## **The Machinery of Justice in England**

Seventh Edition

**R. M. JACKSON**

The seventh edition of Professor Jackson's authoritative and highly readable account of the administration of justice in England and Wales offers a fresh appraisal of the changes brought about by the 1971 Courts Act. The author also examines the systems of legal aid and provision of legal services which have come increasingly under attack, and his chapter on tribunals has been entirely recast and expanded.

'There are precious few readable textbooks in the field of English legal institutions; this one is incomparably the best.'
