

AMERICAN JOURNAL OF ALTERNATIVE AGRICULTURE®

1996

Volume 11, Number 2&3

TABLE OF CONTENTS

Selected Papers from the U.S.-Middle East Conference on Sustainable Dryland Agriculture

- 50** Introduction: Improving the sustainability of dryland farming systems • Robert I. Papendick and James F. Parr
- 52** Farming systems and conservation needs in the Northwest Wheat Region • R.I. Papendick
- 58** Water conservation practices for sustainable dryland farming systems in the Pacific Northwest • John E. Hammel
- 64** Agricultural wind erosion and air quality impacts: A comprehensive research program • Keith E. Saxton
- 71** Advances in the production of cool season food legumes • F.J. Muehlbauer
- 77** Diversification for new management systems opportunities in the Pacific Northwest • L.F. Elliott and P. Chevalier
- 83** Tillage, seeding and fertilizer application technologies • Dale E. Wilkins
- 89** Crop traits for water stress tolerance • Edwin Donaldson
- 95** Diseases of wheat and barley in conservation cropping systems of the semiarid Pacific Northwest • Richard W. Smiley
- 104** Insect pests and management technologies in dryland wheat in Washington • K. S. Pike and L. K. Tanigoshi
- 108** Fertility management in dryland conservation cropping systems of the Pacific Northwest • Paul E. Rasmussen
- 115** GIS and simulation technologies for assessing cropping systems management in dry environments • Claudio O. Stockle
- 121** Integrating crop and livestock production in Inland Northwest farming systems • Linda H. Hardesty and James A. Tiedeman
- 127** Role of economic analysis in the evaluation of new dryland technologies • Douglas L. Young

Book Review Editors — Thomas C. Edens
— James F. Parr
Assistant to the Editor in Chief — Sarah C. Byler
Circulation — Joanna L. Hildebrand
— Nancy L. Ward
Art Director — Randy White

The *American Journal of Alternative Agriculture* (ISSN 0889-1893) is published quarterly by the Henry A. Wallace Institute for Alternative Agriculture, Inc., 9200 Edmonston Road, Suite 117, Greenbelt, Maryland 20770-1551, in collaboration with the Center for Agriculture, Food and Environment, School of Nutrition Science and Policy, Tufts University, Medford, Massachusetts 02155. Neither the Wallace Institute nor Tufts University is responsible for statements and opinions expressed by authors.

Subscription Information

Annual Journal subscription rates: Library/Government/Institutions \$44—US; \$46—Canada and Mexico; \$48—all other countries. Individuals \$24—US; \$26—Canada and Mexico; \$28—all other countries. Students \$12—US; \$14—Canada and Mexico; \$16—all other countries. Second Class postage paid at Greenbelt, MD. Postmaster: Send address changes to *American Journal of Alternative Agriculture*, 9200 Edmonston Road, Suite 117, Greenbelt, MD 20770-1551.

Wallace Institute Information

The Henry A. Wallace Institute for Alternative Agriculture is a nonprofit, tax-exempt research and education organization established in 1983 to encourage and facilitate the adoption of cost-effective, resource-conserving and environmentally sound farming methods. It works closely with producer groups, public research and education institutions, and government agencies in promoting a sustainable agriculture system.

Its programs include providing a national information clearinghouse, serving as a voice for sustainable agriculture in Washington, and developing and implementing research and educational outreach programs. It holds an annual scientific symposium and publishes a monthly newsletter.

The Institute is governed by a grass roots Board of Directors, which includes several commercial-scale organic farmers, and maintains a small professional staff. It is supported by memberships and donations and grants from foundations, corporations, and individuals.
