## **In Search of White Crows**

### **Spiritualism, Parapsychology, and American Culture**

Laurence R. Moore

Spiritualism in America, Professor Moore argues, was a movement born of industrialization, and for almost forty years it was the dominant American sub-culture. It became so by dissociating itself from the mass of semi-religious, semi-occult movements that originated, like spiritualism, in the years preceding the Civil War in the famous 'burned-over districts of upper New York State'. £7

## **The Puritan Way of Death**

### **A Study in Religion, Culture, and Social Change**

David E. Stannard

This book discusses the problem of mortality for America's earliest New England settlers. He examines not only the place of death ritual in Puritan culture, but also the death of that culture itself as America moved into the Industrial Revolution and expanded westwards, adopting the values of a more expansive pioneer and sectarian culture. Illustrated £6.75

## **Strain of Violence**

### **Historical Studies of American Violence and Vigilantism**

Richard Maxwell Brown

In this comprehensive historical study of violence, Professor Brown concludes that 'violence has formed a seamless web with some of the most positive events of U.S. history'. The hard-cover edition of this book, published in 1975, remains available at £7.50. Paper covers £3

## **Democratic Promise**

### **The Populist Movement in America**

Laurence Goodwyn

This re-interprets the most important American reform movement of the late nineteenth century—the Populists. The author believes that they were the last genuine radical political movement in America, and that their most original contributions were linked to an inflationary monetary programme. ## **Dodge City**

### **The Most Western Town of All**

Odie B. Faulk

In the 1870s, Dodge City was the most wide-open town in the American West. Odie Faulk's new book effectively brings to life its colourful story, past and present, and is a worthy companion to his popular study of another famous Western town, *Tombstone* (£5.50). Illustrated £6.50

## **Deep'n as it Come**

### **A Photographic and Documentary History of the 1927 Mississippi River Flood**

Pete Daniel

This book presents a documentary record, through the personal accounts of survivors and contemporary photographs, of one of the most devastating natural disasters in American history: the 1927 flood of the Mississippi River. Over 16 million acres of land were flooded; 160,000 homes were flooded and nearly four times that number of people were made homeless. Illustrated £7.25

## **The Damned and the Beautiful**

### **American Youth in the 1920s**

Paula S. Fass

This examination of the American youth culture of the 1920s shows how the change in family attitudes and the growth of college education after 1900 helped foster a new awareness among the youth of America. Describing the conflict between traditionalists and progressives, the book shows how the young concentrated on issues of personal freedom and were little concerned with political matters. £9.75
