

## Index of Subjects

- N-acetyl- $\beta$ -glucosaminidase, urinary excretion, effect of dietary carbohydrate and fat, kidney calcification, rat 65
- Aflatoxin B, changes in liver fatty acid composition, effect of vitamin A status, chicken 529
- Amino acids *see also* Lysine, Methionine
- Amino acids, [ $^{15}\text{N}$ ]urea studies of their synthesis and incorporation into rumen bacteria, steer 197
- Amino acid flow, intestine, effect of dietary amino acid composition, growing pig 147
- Amino acid imbalance, influence of dietary pattern and carotid or jugular infusion on food intake, cockerel 157
- Amino acid requirements, estimation from lysine requirement, preruminant calf 311
- Amino acid supplementation, optimal levels for barley diets, effect on pig performance 333
- Amino acid supplementation, effect on nutritive value of barley, response of nitrogen metabolism, growing pig 321
- Amino acid-nitrogen, rumen protozoa, contribution to protein entering duodenum, sheep 521
- Appetite control, effect of dietary composition, Zucker rat 111
- Artificial rearing, dietary protein level, effect on performance and nitrogen retention, pig 95
- Artificial rearing, dietary protein source, effect of fish protein on performance and protein digestion, pig 103
- Artificial rearing, effect of medium-chain triglycerides as energy source on performance and nitrogen retention, pig 85
- Ascorbic acid, nutritional status, estimation from leucocyte levels, relation between leucocyte count and plasma ascorbic acid, man 409
- Atherosclerosis, age-related arterial cholesterol, effect of early dietary restriction, pigeon 1
- Barley, amino acid supplementation, effect on nitrogen metabolism, growing pig 321
- Barley, amino acid supplementation, effect on pig performance 333
- Birth weight, effect on onset of puberty, relation to nutritional status, male guinea-pig 231
- Body water, in vivo determination by tritium dilution, relation to body fat, rat 625
- Breast- and bottle-feeding, effect on fatty acid composition of erythrocytes, man 619
- B-vitamins, content of British foods 487
- Calcification, kidney, effect of dietary carbohydrate and fat, rat 65
- Calcium, absorption from gut, effect of pectin as dietary fibre on Ca balance, man 477
- Calcium turnover, effect of age and fluoride status, man 7
- Calf 175, 311
- Carbohydrates *see also* Glucose, Guar gum, Hexose Lactulose, Pectin, Sugars
- Carbohydrate, dietary source, effect with dietary fat on kidney function, rat 65
- Carbohydrate utilization, estimation by indirect calorimetry and mass spectrometry, man 419
- $\beta$ -Carotene, dietary deprivation, effects on reproductive functions, dairy heifer 353
- Cattle *see also* Calf, Cow, Steer
- Cattle 175, 197, 311, 353
- Chicken 57, 163, 529
- Child, *see also* Man, Schoolchildren
- Child 27, 53, 73, 275, 413, 431
- Cockerel *see also* Chicken
- Cockerel 157
- Cow 353
- Diabetes, effect of dietary fructose on stearoyl coenzyme A desaturase activity, relation to tissue fatty acid profiles, rat 239
- Diabetes, effect of guar gum on post-prandial glycaemia, relation to dose and form of feeding, man 505
- Dietary restriction, early life, effect on development of atherosclerosis, arterial cholesterol changes, pigeon 1
- Digestibility, estimation in vitro using intestinal fluid, pig 511
- Digestion, effect of physical form of forage on efficiency of utilization of dietary energy, growing lamb 291
- Dipeptidases, pancreatic activity, effects of pregnancy and lactation, relation to food intake, rat 573
- Endoplasmic reticulum, liver, fatty acid composition, relation to oxidative demethylation rate, effect of dietary fat, rat 465
- Energy intake, relation to nitrogen balance, effect of protein intake and high energy expenditure, man 19
- Energy metabolism, utilization of volatile fatty acids, feeding entirely by intragastric infusion, effect on nitrogen balance, sheep 553
- Energy requirements, maintenance, estimation from total body energy retention and metabolizable energy intake values, growing lamb 223
- Enzymes *see* N-acetyl- $\beta$ -glucosaminidase, Dipeptidases, Proteinase inhibitor, stearoyl coenzyme A desaturase, Superoxide dismutase
- Fats *see* Linoleic acid, Medium-chain triglycerides, Volatile fatty acids
- Fatty acid composition, erythrocytes, influence of breast- and bottle-feeding, man 619
- Fatty acid composition, liver, effect of vitamin A status on response to aflatoxin B, chicken 529

- Fatty acid composition, liver endoplasmic reticulum, relation to oxidative demethylation rate, effect of dietary fat, rat 465
- Fatty acid composition, relation between dietary glucose and fructose and diabetes and stearoyl coenzyme A desaturase activity, rat 239
- Feeding method, milk-substitutes, effect on rumen by-pass and rate of passage, calf 175
- Feeding technique, abomasal and rumen infusion of essential nutrients, long-term study, young sheep 541
- Ferritin, serum concentration, indicator of pre-anaemic iron deficiency, epidemiological study of Fe status, man 291
- Fibre, dietary, gut metabolism, effect on bowel habit and calcium absorption, man 477
- Fibre, dietary form and intake, effect on drug absorption, rat 455
- Fibre, dietary supplementation, effect on faecal characteristics and nutrient digestibility, man 495
- Fluoride toxicity, effect with age on calcium turnover, relation to skeletal changes, man 7
- Fluorosis, effect with age on calcium turnover, relation to bone mineralization, man 7
- Food fortification, iron supplementation of high-cereal diet, preliminary study, preschool children 413
- Food intake regulation, effect of carotid and jugular amino acid infusion, cockerel 157
- Forage diets, effect of physical form on the efficiency of energy utilization, growing lamb 297
- Glucose, plasma levels, effect of guar gum related to the dose and form of feeding, man 505
- Goat 371
- Growth, relation to hormonal balance, effect of malnutrition, child and rat 73
- Growth hormone, relation to the effects of casein infusion on milk production, goat 371
- Growth index, evaluation of longitudinal growth profiles using growth function, average growth achievement with age, child 53
- Guar gum, effect on post-prandial glycaemia in diabetics, relation to dose and form of feeding, man 505
- Guinea-pig 231
- Hexose absorption, small intestine, effects of diet, energy and diabetes, rat 443
- Hormonal balance, relation to growth velocity, effect of malnutrition, child and rat 73
- Hormones *see* Growth hormone
- Iron, absorption from free-choice food items, methodological study, man 283
- Iron, food fortification trial, Fe absorption from supplemented high-cereal diet, preliminary study preschool children 413
- Iron, status, epidemiological study, serum ferritin concentration as an indicator of pre-anaemic Fe deficiency, relation to morbidity, man 291
- Lactation, effect of post-ruminal casein infusion on milk production, relation to growth hormone production, goat 371
- Lactation, effects on pancreas exocrine function, dipeptidase activity, relation to food intake, rat 573
- Lactulose (galactosyl- $\beta$ -1,4-fructose), absorption, rat small intestine and human buccal cavity, mode of transport 47
- Lamb *see also* Sheep
- Lamb 223, 297
- Leucocytes, relation between ascorbic acid content and numbers, significance in relation to ascorbic acid status, man 409
- Linoleic acid, dietary, effect on oxidative demethylation rate in liver endoplasmic reticulum, rat 465
- Lipids, composition and metabolism, liver and brain, effect of vitamin B<sub>12</sub> deficiency, rat suckling 263
- Lucerne (*Medicago sativa*), effect of physical form on efficiency of utilization of dietary energy, growing lamb 291
- Lysine, availability in protein concentrates, slope ratio assay, growing pigs and rats 383
- Lysine requirement, relation to essential amino acid requirements, preruminant calf 311
- Maintenance energy requirement, estimation from total body energy retention and metabolizable energy intake values, growing lamb 223
- Malnutrition, intergenerational, relation to incidence of dermatitis, rat 611
- Malnutrition, muscle fibre growth, effect of nutritional rehabilitation, infant 275
- Malnutrition, relation between hormonal balance and growth, child and rat 73
- Man, 7, 15, 19, 27, 47, 53, 73, 275, 283, 291, 409, 413, 419, 431, 477, 487, 495, 505, 619
- Manganese, content of samples of prepared and cooked British foods 253
- Meat-substitutes, soya-based textured vegetable-protein, phytate, zinc and trace mineral contents, evaluation study relating to human Zn status 579
- Meat-substitutes, soya-based textured-vegetable-protein, zinc availability, prediction from phytate: Zn molar contents, young rat 591
- Medium-chain triglycerides, dietary energy source, effect on performance and nitrogen retention, artificially-reared pig 85
- Methionine, availability, 'ileal' digestibility technique, wheat, barley and soya-bean-protein isolate 559
- Methionine, ruminant metabolism, preliminary quantitative study, silage diets, sheep 605
- Methionine, total and available, estimation of protein quality in cereals and pulses 341
- 3-O-methyl-D-glucose, absorption in small intestine, effects of diet, energy and diabetes, rat 443
- 3-Methylhistidine, content of skeletal and smooth muscle proteins, relation to calculation of muscle protein breakdown from methylhistidine excretion, man 15
- Milk-substitutes, effect of method of feeding on rumen by-pass and rate of passage, calf 175
- Minerals *see* Calcium, Iron, Manganese, Molybdenum, Sulphur, Zinc

- Molybdenum, effect of sulphur intake on metabolism, sheep 125
- Mouse 211
- Muscle fibre, growth, effect of rehabilitation after severe malnutrition, infants 275
- Muscle protein, 3-methylhistidine content, smooth and skeletal muscle, evaluation of calculation of breakdown based on 3-methylhistidine excretion, man 15
- Nitrogen, rumen bacteria, study of amino acid synthesis and incorporation, effect of diets containing non-protein-N or low-protein diets, steer 197
- Nitrogen balance, relation to energy and protein intake, effect of energy expenditure, man 19
- Nitrogen flow, measurement in small and large intestine, growing pig 137
- Obese mouse, 'Ad' mutant, compositional and physiological study 211
- Obese rat, effects of dietary composition on protein deposition and appetite control, Zucker rat 111
- Oxidative demethylation, liver endoplasmic reticulum, relation to dietary fat, rat 465
- Pancreas, exocrine function, dipeptidase activity, effects of pregnancy and lactation, relation to food intake, rat 573
- Paracetamol, effect of intake and form of dietary fibre on absorption rate, rat 455
- Pectin, gut metabolism, effect on bowel habit and calcium absorption, man 477
- Phytate, effect on zinc availability, soya-based textured-vegetable-protein diets, young rat 591
- Phytate, meat-substitutes, evaluation study relating to human zinc status 479
- Pig 85, 95, 103, 137, 147, 321, 333, 383, 511
- Pigeon 1
- Pregnancy, effects on pancreas exocrine function, dipeptidase activity, relation to food intake, rat 573
- Protein *see also* Amino acid, Fish meal, Squid meal
- Protein, dietary level, effect on performance and nitrogen retention, artificially-reared pig 95
- Protein, dietary source, effect of fish protein on performance and protein digestion, artificially-reared pig 103
- Protein, dietary source, nutritional evaluation of squid meal, broiler chicken 163
- Protein deposition, effect of dietary composition, Zucker rat 111
- Protein malnutrition, relation to infection in inter-generationally malnourished rats, incidence of dermatitis, rat 611
- Protein quality, evaluation in rice, sorghum, barley and fish beans, methodological study 341
- Protein quality, 'ileal' digestibility technique, wheat, barley and soya-bean-protein isolate, 559
- Proteinase inhibitors, field bean (*Vicia faba* L.), effect on pancreas weight and enzyme secretion, rat 39
- Proteinase inhibitor, field bean (*Vicia faba* L.), relation to growth, nutritional and physiological effects, rat 31
- Protozoa, rumen, contribution to protein entering duodenum measured as total protozoal amino acid-nitrogen, sheep 521
- Puberty, time of onset, effects of birth weight and undernutrition, male guinea-pig 231
- Pyridoxine, deficiency, biochemical and clinical indices, prevalence of angular stomatitis and glossitis, response to treatment, schoolboys 431
- Rat 31, 39, 47, 57, 65, 73, 111, 183, 239, 263, 383, 399, 443, 455, 465, 573, 591, 611, 625
- Reproductive function, response to dietary  $\beta$ -carotene deprivation and low  $\beta$ -carotene levels, dairy heifer 353
- Riboflavin, deficiency, biochemical and clinical indices, prevalence of angular stomatitis and glossitis, response to treatment, schoolboys 431
- RNA, dietary, relation between season and RNA effect on plasma glucose and free fatty acids, rat 183
- Rumen fermentation, secondary processes, relation to volatile fatty acid availability, molasses diet, sheep 393
- Schoolchildren 27, 413, 431
- Seasonal variation, influence on effect of dietary RNA on plasma glucose and free fatty acids, rat 183
- Sheep, 125, 223, 297, 393, 521, 541, 553, 605
- Shoti (*Curcuma zedoaria*), protein content of flour, effect of method of extraction, growth tests using chicks and rats 57
- Silage diets, ruminant, methionine metabolism, preliminary quantitative study, sheep 605
- Soya-based meat-substitutes, phytate, zinc and trace mineral contents, evaluation study relating to human Zn status 479
- Soya-based meat-substitutes, zinc availability, prediction from phytate:Zn molar contents, young rat 591
- Squid (*Illex illecebrosus*) 163
- Squid meal, dietary protein source, nutritional evaluation, broiler, chicken 163
- Stearoyl coenzyme A desaturase, effect of dietary glucose and fructose and diabetes, relation to tissue fatty acid profiles, rat 239
- Steer 197
- Sugars *see* Glucose, Guar gum, Hexose, Lactulose, 3-O-methyl-D-glucose, Pectin
- Sulphur, effect of intake on molybdenum metabolism, Sheep 125
- Superoxide dismutase, liver activity, effect of dietary zinc restriction and ethanol consumption, dam and foetus, rat 399
- Technique, estimation of digestibility in vitro using intestinal fluid, pig 511
- Technique, evaluation of protein quality of rice, sorghum, barley and field beans 341

- Technique, feeding by abomasal and rumen infusion of essential nutrients, long-term study, young sheep 541
- Technique, 'ileal' digestibility method for assessing protein quality in wheat, barley and soya-bean-protein isolate 559
- Technique, in vivo determination of body composition by tritium dilution, rat 625
- Technique, measurement of carbohydrate utilization, indirect calorimetry and mass spectrometry, man 419
- Technique, measurement of iron absorption from free-choice food items, man 283
- Technique, slope-ratio assay for determining lysine availability of protein concentrates, growing pigs and rats 383
- Trace elements *see also* Iron, Manganese, Molybdenum, Sulphur, Zinc
- Trace elements, magnesium, copper and zinc, content of British foods 487
- Trace nutrients, magnesium, copper, zinc, vitamin B<sub>6</sub>, vitamin B<sub>12</sub> and folic acid, British foods 487
- Undernutrition, effect on onset of puberty, relation to birth weight, male guinea-pig 231
- Vicia faba* L., proteinase inhibitors, effect on pancreas weight and enzyme secretion, rat 39
- Vicia faba* L., proteinase inhibitor, relation to growth, nutritional and physiological effects, rat 31
- Visual acuity, relation to vitamin B-complex status, schoolchildren 27
- Vitamins *see also* Ascorbic acid, B-vitamins,  $\beta$ -Carotene, Phytate, Pyridoxine, Riboflavin, Vitamin A, Vitamin B, Vitamin B<sub>12</sub>
- Vitamin A status, effect on response to aflatoxin B, changes in liver fatty acid composition, chickens 529
- Vitamin B complex, deficiency, relation to visual defects, schoolchildren 27
- Vitamin B deficiency, relationship between biochemical and clinical indices, prevalence of angular stomatitis and glossitis, response to treatment, school boys 431
- Vitamin B<sub>12</sub> deficiency, effect on fatty acid synthesis and lipid composition in liver and brain, rat suckling 263
- Volatile fatty acids, feeding by intragastric infusion, effect on nitrogen and energy balance, efficiency of utilization for fattening, sheep 553
- Zinc, dietary restriction, effect on liver superoxide diomutase activity, dam and foetus, rat 399
- Zinc availability, soya-based textured-vegetable-protein, prediction from phytate:Zn molar contents, young rat 591
- Zinc status, meat-substitutes, evaluation study of phytate, Zn and trace mineral contents in relation to human consumption 579
- Zucker rat, effect of dietary protein quality and energy on food intake and growth 111
