INTERNATIONAL MEETINGS

Microscopy Today readers who like to plan ahead should note the following calendar of IFSEM-sanctioned international meetings for the next 6 years and renew their passports. Locations of the remaining overseas meetings during this century will be decided in 1994. The addresses of the Secretariats and the specific dates of these meetings will be given in our next issue.

- 2nd Atlantic EM Regional Congress - Cancun, Mexico; September, 1993.
- XIII International Congress for Electron Microscopy - Paris, France; July 1994
- EUREM - European Regional Electron Microscopy Meeting - Dublin, Eire; September 1996
- APEM - Asia-Pacific Regional Electron Microscopy Meeting - Hong Kong; August 1996
- XIV International Congress for Electron Microscopy - Cancun, Mexico; September 1998

*A Friendly Reminder;
Now would be an excellent time to get caught up on your dues with the National and Regional MSA and MAS Societies. Your action would save your Secretary a bunch of grief!!!*
