**Aims and Scope:** *The Journal of Economic History* seeks to promote the scholarly study of economic aspects of the human past from a diversity of perspectives, notably those of economists and historians. By encouraging careful formulation of issues and clear exposition of methods, the JOURNAL hopes to stimulate discourse among scholars with varied interests and modes of inquiry.

The JOURNAL is abstracted in *The Journal of Economic Literature*, which is part of the DIALOG on-line data service.

**Instructions for Contributors:** Articles on economic history and related aspects of history or economics will be considered for publication by the Editors on the understanding that the articles have not previously been published and are not under consideration elsewhere. Papers should indicate the wider significance of detailed original research findings as well as the logic and limitations of specialized techniques of analysis. Comments and shorter notes are also welcome. The JOURNAL does not accept unsolicited book reviews, nor can it honor requests to review particular works. Contributions should be typed double-spaced. Footnotes, also double-spaced, should be grouped at the end of the paper, along with figures and tables. Four copies of each manuscript should be submitted. Prospective contributors may obtain a copy of the Style Sheet for the JOURNAL from the Editorial Office. A submission fee of \$20.00 or a year's membership (fee schedule below) is required from nonmembers of the Association.
