

## CONTENTS

ADELMAN, MURRAY: Embedding categories with exactness into their abelianization	275
ALLADI, KRISHNASWAMI: On arithmetic functions and divisors of higher order	9
ANANTHARAMAN, R. and GARG, K. M.: Some topological properties of vector measures and their integral maps	453
ANDERSON, MARLOW and CONRAD, PAUL and KENNY, OTIS: Splitting properties in Archimedean $l$ -groups	247
ASH, C. J.: Dense, uniform and densely subuniform chains	1
BAIRD, BRIDGET BOS: Isomorphisms between inverse semigroups of injective transformations	194
BEDNAREK, A. R. and NORRIS, EUGENE M.: Two semigroups of continuous relations	46
BLUM, J. and SUSARLA, V.: A Fourier inversion method for the estimation of a density and its derivatives	166
BORGES, CARLOS R.: Free topological groups	360
BOZAPALIDES, SYMEON: A note on 2-distributors	242
BRUNNER, A. M. and McCOOL, JAMES and PIETROWSKI, ALFRED: Groups which are an infinite cyclic extension of a unique base group	499
CHATTERS, A. W. and HAJARNAVIS, C. R. and NORTON, N. C.: The Artin radical of a Noetherian ring	379
CHILLAG, DAVID: On doubly transitive permutation groups of degree prime squared plus one	202
COLVILLE, P. and DAVIS, G. and KEIMEL, K.: Positive derivations on $f$ -rings	371
CONRAD, PAUL: see ANDERSON, MARLOW	247
CURRAN, M. J.: Decomposable involution centralizers involving exceptional Lie type simple groups	59
DAVIS, G.: see COLVILLE, P.	371
DAY, B. J.: Note on monoidal monads	292
DAY, B. J.: Promonoidal functor categories	312
de HAAN, LAURENS: On functions derived from regularly varying functions	431
EVANS, ELLIOTT: The Boolean ring universal over a meet semilattice	402
EVANS, M. W.: Extensions of semi-hereditary rings	333
GARG, K. M.: see ANANTHARAMAN, R.	453
GROSS, W. F.: Dimension and finite closure	421
HAJARNAVIS, C. R.: see CHATTERS, A. W.	379
HAMEDANI, G. G.: Positive definite functionals in Banach spaces	416
HARARY, FRANK and HSU, DERBIAU and MILLER, ZEVI: The bichromaticity of a lattice-graph	354
HEYMAN, G. A. P. and ROOS, C.: Essential extensions in radical theory for rings	340
HIRSHON, R.: Some cancellation theorems with applications to nilpotent groups	147
HÖGNÄS, GÖRAN: Random semigroup acts on a finite set	481
HSU, DERBIAU: see HARARY, FRANK	354
HUTCHINSON, M. F.: Non-tall compact groups admit infinite Sidon sets	467
JOSEPH, JAMES E.: On minimal Hausdorff spaces	476
KEIMEL, K.: see COLVILLE, P.	371
KENNY, OTIS: see ANDERSON, MARLOW	247
KEZLAN, THOMAS P.: On transposes of nilpotent matrices over arbitrary rings	366
LARSEN, LEIF: The conjugacy problem and cyclic $HNN$ constructions	385
LE, VAN TU: Omega-Polish spaces and measurable selections	257
LINDSEY, DIANA and MADISON, BERNARD: Bounded Baer-Levi semigroups	183

LONGSTAFF, W.E.: Combinatorial solution of certain systems of linear equations involving $(0, 1)$ matrices	266
MCCARTHY, D. and VAN REES, G. H. J.: Some results on a combinatorial problem of Cordes	439
McCOOL, JAMES: see BRUNNER, A. M.	499
MADISON, BERNARD: see LINDSAY, DIANA	183
MATLAK, R. F.: A new proof of the absence of limit cycles in a quadratic autonomous system	284
MILLER, ZEVI: see HARARY, FRANK	354
MORGAN, ELIZABETH J.: Construction of balanced incomplete block designs	348
NORRIS, EUGENE M.: see BEDNAREK, A. R.	46
NORTON, N. C.: see CHATTERS, A. W.	379
PHAN, KOK-WEE: On groups generated by three dimensional special unitary groups I	67
PHAN, KOK-WEE: On groups generated by three dimensional special unitary groups II	129
PIETROWSKI, ALFRED: see BRUNNER, A. M.	499
PRAEGER, CHERYL E.: Sylow subgroups of transitive permutation groups II	329
PRICE, T. M.: Homeomorphisms of Quaternion space and projective planes in four space	112
REILLY, N. R.: Enlarging the Munn representation of inverse semigroups	28
ROOS, C.: see VAN LEEUWEN, L. C. A.	172
ROOS, C.: see HEYMAN, G. A. P.	340
SIMS, BRAILEY: On the existence of support maps with dense images	504
SUSARLA, V.: see BLUM, J.	166
SZETO, GEORGE: On a sheaf representation of a class of near-rings	78
TAYLOR, WALTER: Varieties of topological algebras	207
VAN LEEUWEN, L. C. A. and ROOS, C. and WIEGANDT, R.: Characterizations of semisimple classes	172
VAN REES, G. H. J.: see MCCARTHY, D.	439
VAN TU, LE: see LE VAN TU	257
WICKSTEAD, A. W.: The spectrum of an $R$ -homomorphism	42
WIEGANDT, R.: see VAN LEEUWEN, L. C. A.	172
WONG, JAMES C. S.: Abstract harmonic analysis of generalised functions on locally compact semigroups with applications to invariant means	84
WONG, PAK-KEN: On certain subalgebras of a dual $B^*$ -algebra	105
ZEILBERGER, DORON: A new basis for discrete analytic polynomials	95
ZEILBERGER, DORON: A discrete analogue of the Paley-Wiener theorem for bounded analytic functions in a half plane	376
