1987 MRS Election Results

JUST TOUCHING THE SURFACE?

DO YOU KNOW WHERE YOUR INTERFACE IS?

RBS can find it for you! **R**utherford **B**ackscattering **S**pectrometry – Quantitative atomic stoichiometry without standardization and non-destructive multi-layered depth profiling to 10,000Å.

Operation of RBS Surface Analyzer is a piece of cake. RBS provides quick (15 minutes) and accurate ($\pm 5\%$) surface and depth information applicable to metals, silicides, catalysts, polymers, glasses, and coatings.

Send us several samples; RBS will find your interface. Get in touch with General Ionex Corporation, 19 Graf Road, Newburyport, MA 01950 – Attention: Dr. David Stern (617) 462-7147.

MRS BULLETIN is published bimonthly by the Materials Research Society for its members and others interested in materials science. Correspondence and submissions are invited. They should be brief and typewritten (double-spaced), and the author's affiliation must be indicated. Address all correspondence to the Editor.
