'Tabloid' 'Methedrine' is of outstanding value in the symptomatic treatment of depressive mental states. It is therefore particularly useful in overcoming the apathy of the unco-operative patient.

An amphetamine derivative, it produces a more rapid onset of effect and acts for a longer period of time than other members of the group. 'Tabloid' 'Methedrine' is issued as compressed products of 5 mgm., in containers of 25, 100, 500 and 1000.

The Alpha and Omega of ELECTRO- ENCEPHALOGRAPHS

The Marconi 6-channel E.E.G. is the product of unremitting electrical development and exhaustive pre-production trials. In many parts of the world it has gained the confidence of operator and neurologist, many distinctive features contributing to an exemplary performance.

- Adjustable floor-stand with fourteen non-polarisable silver/silver chloride head-electrodes
- Balanced high-gain amplifiers
- Frequency response extending from a fraction of a cycle up to 75 cycles for direct recording
- Six-channel 3-speed recorder with marker and timing pens
- "Universal" amplification up to 5000 c/s for use with external apparatus.

BARNWOOD HOUSE

GLOUCESTER

CRICKLEY COURT—ONE OF THE SEPARATE VILLAS

A REGISTERED HOSPITAL, (outside the National Health Service) for the CARE and TREATMENT of LADIES and GENTLEMEN suffering from NERVOUS and MENTAL DISORDERS. Within two miles of the Western and London Midland Regional Railway Stations at Gloucester, the Hospital is easily accessible by rail from London and all parts of the United Kingdom. It is beautifully situated at the foot of the Cotswold Hills, and stands in its own grounds of over 300 acres. Voluntary Patients of both sexes are also received for treatment. Special accommodation is also provided at three villa residences, all of which stand in their own grounds and are entirely separate from the main Hospital. All the most modern methods of treatment including electric shock and prefrontal leucotomy are used.

in
**Parkinson's
 syndrome**

trade mark **'LYSIVANE'** *brand*
ethopropazine hydrochloride

a new synthetic drug, has been shown to give symptomatic improvement in the varied manifestations of the condition, and its beneficial effect is apparent in both idiopathic and post-encephalitic cases.

The benefit obtained is evidenced by decreased rigidity and increased mobility. In those cases that show improvement the main result of treatment is that posture, gait, facies, speech and everyday muscular activity tend to improve and in some cases actually return to normal. 'Lysivane' is supplied in containers of 50 and 500 x 50 mgm. tablets.

INSTRUCTIONS TO AUTHORS

Strict observation of the following requirements will save intending authors considerable time and worry, and will facilitate the publication of papers submitted.

- (1) Authors should consult a current issue to see how a paper should be presented. They should consult *General Notes on the Preparation of Scientific Papers*, published for the Royal Society by the Cambridge University Press, 200, Euston Road, London, N.W.1 (price 2s. 9d. post free).
- (2) The title should be brief and contain no sub-heading. This should be followed by the author's name, his qualifications and his present appointment.
- (3) Omit a summary of the literature when this has been adequately summarized elsewhere.
- (4) For reasons of economy, case-histories of patients can be published only when they are of exceptional scientific interest.
- (5) Diagrams and graphs must be drawn in black ink with properly printed lettering. If they have to be redrawn by the printer, the cost, which may amount to several pounds, will be charged to the author.
- (6) Tables and graphs should be kept as few as possible. If they number more than a few, the author must be prepared to pay part of their cost.
- (7) Data should be dealt with in a proper statistical manner, i.e. there should be stated the number of individual results, their mean value, the standard error of the mean and the extreme range of values.
- (8) All references should be given at the end of the paper, in alphabetical order, and in the following form :
SMITH, A. B., *J. Ment. Sci.*, 1950, **95**, 493.
In the body of the paper they should appear as : Smith (1950).
- (9) When the proof arrives from the printer it is for the correction of printer's mistakes only. Larger alterations can be made only with the Editor's permission and if the author is willing to defray the cost.
- (10) The author will receive 6 reprints of his paper free of charge. If further reprints are required the order should be sent **direct** to Messrs. Adlard & Son, Ltd., Bartholomew Press, Dorking, Surrey.
- (11) A paper sent to the Editor-in-Chief is, as a rule, sent to one of the panel of Referees set out on the cover of the Journal for his opinion. Papers are not rejected by the Editor-in-Chief until a second or further opinions have been received.
