

# QUATERNARY RESEARCH

*Quaternary Research* is an international journal devoted to the advancement of the interdisciplinary understanding of the Quaternary Period. We aim to publish articles of broad interest with relevance to more than one discipline, and that constitute a significant new contribution to Quaternary science. The journal's scope is global, building on its 50-year history in advancing the understanding of earth and human history through interdisciplinary study of the last 2.6 million years. Research areas include geoarcheology, geochemistry and geophysics, geochronology, geomorphology, glaciology, neotectonics, paleobotany and paleoecology, paleoclimatology, paleogeography, paleohydrology, paleontology, paleoceanography, paleopedology, Quaternary geology, volcanology and tephrochronology.

**Submit manuscripts** online at <http://editorialmanager.com/qr>. See instructions for submitting your manuscripts at <https://www.cambridge.org/core/journals/quaternary-research/information/guide-for-authors>.

**Subscription Information:** *Quaternary Research* publishes six volumes per year. The journal is published on behalf of Quaternary Research Center by Cambridge University Press, One Liberty Plaza, 20<sup>th</sup> Floor, New York, NY 10006, USA. Annual subscription rates for Volumes 93–98 (2020): Institutional rate, print only: \$1,515.00 (£1074.00 + VAT). Institutional rate, online only: \$1,486.00 (£1055.00 + VAT). Institutional rate, print and online: \$1,576.00 (£1120.00 + VAT). For subscriptions, renewals, and address changes, please visit <https://www.cambridge.org/core/journals/quaternary-research/subscribe>. Email [subscriptions\\_newyork@cambridge.org](mailto:subscriptions_newyork@cambridge.org) if you are in the Americas or [journals@cambridge.org](mailto:journals@cambridge.org) for the rest of the world.

## CONTENTS

- 1–18** **Geochemical and mineralogical characterization of sediments from Lake Futalaufquen (42.8°S, Andean Patagonia) to evaluate their potential as paleoclimatic proxies**  
*Romina Daga, Sergio Ribeiro Guevara, Andrea Rizzo, Polona Vreča, Sonja Lojen, Natalia Williams, Telma Musso, Valeria León, Daniel Poiré, Marina Arcagni and María Arribére*
- 19–35** **Moraines and late-glacial stratigraphy in central Lake Superior**  
*Steven M. Colman, Andy Breckenridge, Lucas K. Zoet, Nigel J. Watrus and Thomas C. Johnson*
- 36–48** **A 3600-year record of drought in southern Pacific Costa Rica**  
*Zachary P. Taylor, Chad S. Lane and Sally. P. Horn*
- 49–57** **Obsidian and volcanic glass artifact evidence for long-distance voyaging to the Polynesian Outlier island of Tikopia**  
*Mark D. McCoy, Caroline Cervera, Mara A. Mulrooney, Andrew McAlister and Patrick V. Kirch*
- 58–80** **Processes of Paleindian site and desert pavement formation in the Atacama Desert, Chile**  
*Paula C. Ugalde, Jay Quade, Calogero M. Santoro and Vance T. Holliday*
- 81–101** **Timing of the Middle-to-Upper Palaeolithic transition in the Iberian inland (Cardina-Salto do Boi, Côa Valley, Portugal)**  
*Thierry Aubry, Luca Antonio Dimuccio, António Fernando Barbosa, Luís Luís, André Tomás Santos, Marcelo Silvestre, Kristina Jorkov Thomsen, Eike Rades, Martin Autzen and Andrew Sean Murray*
- 102** **A taxonomic and taphonomic study of Pleistocene fossil deposits from the western Nefud Desert, Saudi Arabia – Addendum**  
*Mathew Stewart, Julien Louys, Paul S. Breeze, Richard Clark-Wilson, Nick A. Drake, Eleanor M.L. Scerri, Iyad S. Zalmout, Yahya S. A. Al-Mufarreh, Saleh A. Soubhi, Mohammad A. Haptari, Abdullah M. Alsharekh, Huw S. Groucutt and Michael D. Petraglia*
- 103** **First archaeointensity reference paleosecular variation curve for South America and its implications for geomagnetism and archaeology – Corrigendum**  
*Avto Gogutchichvili, Catriel Greco, Rafael Garcia Ruiz, Lucas Pereyra Domingorena, Ruben Cejudo, Juan Morales, Claudia Gogorza, Cristina Scattolin and Myriam Tarragó*
