ISSN 0334-2700

JOURNAL of the AUSTRALIAN MATHEMATICAL SOCIETY

Series B — Applied Mathematics

Volume 41 Part 3
JANUARY 2000

Instantaneous point source solutions in nonlinear diffusion with nonlinear loss or gain
J. R. Philip 281

Forced cubic Schrödinger equation with Robin boundary data: continuous dependency result
Charles Bu 301

Final iterations in interior point methods – preconditioned conjugate gradients and modified search directions
Weichung Wang 312

On two lemmas of Brown and Shepp having application to sum sets and fractals, III
N. Elezović, M. Matić, C. E. M. Pearce and J. Pečarić 329

An analysis of two and three dimensional unsteady withdrawal flows, using shallow water theory
A. J. Koerber and L. K. Forbes 338

On pursuit curves
J. C. Barton and C. J. Eliezer 358

Averaging of the Hamilton-Jacobi equation in infinite dimensions and an application
Shihong Wang and Zuoyi Zhou 372

The generalized Shannon system in wavelet space
Hong Oh Kim and Jong Ha Park 386

A reverse Hölder type inequality for the logarithmic mean and generalizations
John Maloney, Jack Heidel and Josip Pečarić 401

An analysis of a fractal Michaelis-Menten curve
Jack Heidel and John Maloney 410

Set by TeχAdel, Adelaide, Australia.
Printed by University Printing Service, ANU, Canberra, Australia.

The Journal of the Australian Mathematical Society began publication in 1959, and from 1975 appears in two series, Series A (Pure Mathematics and Statistics) and Series B (Applied Mathematics). Series B is published in volumes comprising four quarterly parts. Information about Series A and other publications of the Society may be found on the inside back cover.

It is the editorial policy of Series B to accept papers in any field of applied mathematics and related mathematical sciences. Novel applications of mathematics in real situations are especially welcomed. All papers should include some indication of applicability, and an introduction that can be understood by non-specialist readers from the whole applied mathematical community.

Editor of the Journal, Series B

C. E. M. PEARCE, Applied Mathematics Department, University of Adelaide, Australia, 5005.

Associate Editors

A. P. BASSOM

Manuscripts (three copies) for publication should be sent to the editor or to an appropriate associate editor at the address given above. Such action is a representation by the author that the manuscript has not been copyrighted or published, and that it is not being considered for publication elsewhere.

Authors are asked to read the section "Preparation of Manuscripts" on the outside cover.

Irrespective of the number of authors, 50 free offprints of each copy are provided; additional offprints may be ordered at the expense of the authors.

Excessive costs incurred by the Society through corrections to or withdrawal of articles may be charged to the authors concerned.

Journal of the Australian Mathematical Society, Series B—Applied Mathematics (ISSN 0334-2700) is published quarterly for A$250 (Members A$36) per annum by the Australian Mathematical Society, Mathematics Department, Australian National University, ACT 0200, Australia. Send address change notices to Dr A. Howe, Journal of the Australian Mathematical Society, Mathematics Department, Australian National University, ACT 0200, Australia.
