If you're a true aviation buff, if your career is in the aerospace business, if your heritage is important to you, then you'll like AEROSPACE HISTORIAN.

It is the official journal of the Air Force Historical Foundation, a nonprofit group dedicated to preserving the traditions and publishing the history of aerospace power, with special emphasis on those of the United States Air Force. AEROSPACE HISTORIAN is published quarterly for the Foundation by Kansas State University.

It contains authoritative historical articles and photographs, book reviews, museum news, and other features stressing the importance and relevance of the lessons of the past for the present and future.

Fill out the coupon and see how truly exciting history can be. Check or money order must accompany application.

Statement of purpose for the AFHF: The purpose of the Air Force Historical Foundation is to preserve the traditions and publish the history of aerospace power with special emphasis on those of the United States Air Force. In striving to meet these goals, the Foundation relies heavily on the publication of AEROSPACE HISTORIAN and sponsorship of appropriate educational and cultural activities.

Cranfield

MSc IN AIR TRANSPORT ENGINEERING

The Institute offers a one-year residential post-graduate course in Air Transport Engineering designed for engineers and scientists of graduate standard concerned with or interested in the airline industry and the transport aircraft manufacturing industry.

The syllabus covers the operational, engineering and economic implications of air transport together with the directly related aspects of systems, materials, design and propulsion. Use is made of Institute aircraft to illustrate the operational aspects of the subject.

Residential facilities for single and married students are normally available, but early application is advised. To discuss further details contact David Yeomans, telephone Bedford 750111, ext. 426, or write:

**The Registrar (Admissions),

DECCA AVIONICS

Decca Aviation Electronics—the choice of an ever growing number of users.

Decca Doppler Navigation Systems have been installed in over 80 different types of rotary and fixed wing aircraft and supplied to 40 different countries.

The TANS Computer/Display has also been ordered by the British Ministry of Defence for a number of major aircraft programmes.

The Decca Navigator is used by the Royal Air Force, British

Airways and in a wide variety of fixed and rotary wing civil and military aircraft throughout the world.

Decca Loran is used by the RAF, the USAF and the US Coast Guard.

The MONA area navigation system, certified by the CAA and FAA in the Lockheed TriStar, is now in widespread airline service.

Decca provides a range of airborne VHF Nav/Comm and DME equipment, ordered in quantity by the M.O.D.

Ground equipment includes a CAA approved NDB, ILS and a Doppler/VOR Beacon recently awarded a contract by the Portuguese Directorate General of Civil Aviation. The AN/TRN-26 portable TACAN has been chosen by the Ministry of Defence (RAF).

The Decca range of equipment includes electronic warfare systems, ASMI, radio communications and Omega.

Throughout the world, Aviation relies on Decca for safety and reliability in navigation.
