

BOOKS, ETC., RECEIVED.—*Cont.*

A School Geometry. By H. S. HALL and F. H. STEVENS. Parts I.-IV., pp. xi, 240; vii. 3/. 1904. Parts III. and IV., pp. x, 137-240; iii. 1/6. 1904. Parts IV., V., pp. x, 213-340; iv. 2/. 1904 (Macmillan).

Worked Problems in Higher Arithmetic. By W. P. WORKMAN and R. H. CHOPE. pp. vi, 144. 2/. 1904 (Clive).

Méthodes de Résolution et de Discussion des Problèmes de Géométrie. By G. LEMAIRE. pp. 223. 2 fr. 50 c. 1904 (Vuibert et Nony).

Grundlagen der Geometrie. By D. HILBERT. 2nd Edition, enlarged, with five appendices. pp. vi, 175. 1904 (Teubner).

Aufgaben aus der Analytischen Geometrie der Ebene. By A. HOCHHEIM. Third and enlarged Edition. Part I. Aufgaben. *Die Gerade Linie, der Punkt, der Kreis.* pp. vi, 98. 2 m. 40. 1904. *Auflösungen.* pp. 123. 2 m. 60. 1904. Part II. Aufgaben. *Die Kegelschnitte.* pp. 81. 2 m. 1899. *Auflösungen.* pp. 96. 2 m. 20. 1899. Part III. Aufgaben. *Projektivische Geometrie. Trigonometrische Koordinaten.* pp. 66. 1 m. 80. 1886. *Auflösungen.* pp. 94. 2 m. 20. 1886.

The Tutorial Algebra. (Advanced Course.) Based on the *Algebra* of Radhakrishnan. By W. BRIGGS and G. H. BRYAN. Third impression (second edition). pp. viii, 612. 6/6. 1903 (Clive).

OXFORD UNIVERSITY PRESS.

AN INTRODUCTORY TREATISE ON LIE'S
THEORY OF FINITE CONTINUOUS TRANSFORMATION GROUPS.
By J. E. CAMPBELL, M.A. 8vo, cloth, 14s. net.

NOTES ON ANALYTICAL GEOMETRY. An
Appendix. By A. CLEMENT JONES, M.A., Ph.D. Crown 8vo, cloth,
6s. net.

SCHOOL WORLD.—"For students who had a first course in analytical geometry these notes will be very attractive. There is not, perhaps, very much that is new in them, but the treatment is fresh and the style simple and clear. The text consists of six chapters. The first five . . . form a very useful appendix to the usual text-books. The sixth chapter forms a much needed addition to elementary analytical geometry."

MATHEMATICAL CRYSTALLOGRAPHY AND
THE THEORY OF GROUPS OF MOVEMENTS. By HAROLD HILTON,
M.A. 8vo, cloth, with many Illustrations. 14s. net.

EXPERIMENTAL AND THEORETICAL COURSE
OF GEOMETRY. By A. T. WARREN, M.A. Second edition, thoroughly
revised. Crown 8vo, cloth, 2s., with or without Answers.

LECTURES ON THE LOGIC OF ARITHMETIC.
By M. E. BOOLE. Crown 8vo, cloth, 2s., or, interleaved with writing
paper, 3s.

ATHENAEUM.—"This is emphatically an interesting little book. . . . Mrs. Boole somehow manages to captivate the reader by the quaintness and originality of her discussions. . . . Even those who would never dream of adopting her peculiar educational method—and we imagine that they constitute the majority—will find her exposition of her views stimulating and amusing."

Complete Catalogue Post Free on application.

THE MATHEMATICAL ASSOCIATION.

(An Association of Teachers and Students of Elementary Mathematics.)

"I hold every man a debtor to his profession, from the which as men of course do seek to receive countenance and profit, so ought they of duty to endeavour themselves by way of amends to be a help and an ornament thereunto."—BACON.

President :

Professor A. R. FORSYTH, LL.D., Sc.D., F.R.S.

Vice-Presidents :

SIR ROBERT S. BALL, LL.D., F.R.S.	R. LEVETT, M.A.
G. HEPPEL, M.A.	Professor A. LODGE, M.A.
Prof. W. H. H. HUDSON, M.A.	Professor G. M. MINCHIN, F.R.S.

Treasurer :

F. W. HILL, M.A., City of London School, London, E.C.

Editor of the *Mathematical Gazette* :

W. J. GREENSTREET, M.A., Marling Endowed School, Stroud.

Secretaries :

C. PENDLEBURY, M.A., St. Paul's School, London, W
H. D. ELLIS, M.A., 12 Gloucester Terrace, Hyde Park, London, W.

Other Members of the Council :

S. BARNARD, M.A.	F. S. MACAULAY, M.A., D.Sc.
R. F. DAVIS, M.A.	W. N. ROSEVEARE, M.A.
J. M. DYER, M.A.	A. W. SIDDON, M.A.
C. GODFREY, M.A.	C. O. TUCKEY, M.A.
C. S. JACKSON, M.A.	W. H. WAGSTAFF, M.A.

C. E. WILLIAMS, M.A.

THE MATHEMATICAL ASSOCIATION, formerly known as the *Association for the Improvement of Geometrical Teaching*, is intended not only to promote the special object for which it was originally founded, but to bring within its purview all branches of elementary mathematics.

Its fundamental aim as now constituted is to make itself a strong combination of all masters and mistresses, who are interested in promoting good methods of mathematical teaching. Such an Association should be a recognized authority in its own department, and should exert an important influence on methods of examination.

General Meetings of the Association are held in London once a term, and in other places if desired. At these Meetings papers on elementary mathematics are read, and any member is at liberty to propose any motion, or introduce any topic of discussion, subject to the approval of the Council.

"The *Mathematical Gazette*" is the organ of the Association. It contains—

- (1) ARTICLES, on subjects within the scope of elementary mathematics.
- (2) NOTES, generally with reference to shorter and more elegant methods than those in current text-books.
- (3) REVIEWS, at present the most striking feature of the *Gazette*, and written by men of eminence in the subject of which they treat. They deal with the more important English and Foreign publications, and their aim, where possible, is to dwell rather on the general development of the subject, than upon the part played therein by the book under notice.
- (4) PROBLEMS AND SOLUTIONS, generally selected to show the trend of investigation at the universities, so far as is shown in the most recent scholarship papers. Questions of special interest or novelty also find a place in this section.
- (5) SHORT NOTICES, of books not specially dealt with in the REVIEWS.

Intending members are requested to communicate with one of the Secretaries. The subscription to the Association is 10s. per annum, and is due on Jan. 1st. It includes the subscription to "The *Mathematical Gazette*."
