

# Science, History and Technology

**H. J. FYRTH, B.Sc.(Econ.), and  
MAURICE GOLDSMITH, B.Sc.(Econ.)**

The theme of these volumes is that the unfolding movements of our age can be fully appreciated only by those who include the history of science and technology as an essential part of human development; and that science and technology themselves can be understood only as part of the whole human fabric, social, economic, political and historical.

The authors' chosen subject is vast and constantly expanding in scope and importance; their aim has been to produce a picture selective in detail but at the same time giving a faithful reproduction of the whole scene, which students can fill in from their own specialized knowledge, and which will encourage others to explore selected areas more closely.

**'These volumes are interesting and rewarding. They are well written and survey all the most fascinating historical vistas. They are designed to stimulate thought as well as to present the record.'**

ASA BRIGGS

**'This book (and also its predecessor) are meant to be part of our education, teaching us both to understand the scientific revolution and to give it a human face.'**—C. P. SNOW

Book 1 (published in 1965): A.D. 800-1840 25s. *net.*

Book 2 Part I: *The Age of Confidence* (1840-80) 21s.

Part II: *The Age of Uncertainty* (1880-1940) 25s.

Part III: *The Age of Choice* (1940-60s) 25s.

## THE BRITISH SOCIETY FOR THE HISTORY OF SCIENCE

THE objects of the Society are to further the study of the history of science, by holding meetings for the reading and discussion of papers, and by facilitating the publication of relevant material.

*The British Journal for the History of Science* is the official organ of the Society.

Meetings are held in the Science Museum, Exhibition Road, South Kensington, London, S.W.7, usually in October, November, March and May. In addition a Winter Meeting is held in January and a Summer Meeting in June; neither of these meetings is necessarily held in London.

Membership is open to all persons approved by the Council of the Society, and elected at an Ordinary Meeting. The annual subscription is at present £2 10s. (for Students £1 10s.) and includes a free issue of the Society's Journal, which appears in June and December each year.

Those who wish to join the Society should write to the *Assistant Secretary*, British Society for the History of Science, 393 Cowley Road, Oxford.

Papers for inclusion in the Journal should be submitted to the *Hon. Editor*, Dr. M. P. Crosland, Department of Philosophy, The University, Leeds 2, from whom instructions may be obtained concerning the presentation and documentation of papers. All communications on editorial matters, and books for review, should be addressed to the Hon. Editor.

Particulars regarding advertising in the Journal may be obtained from the *Assistant Secretary*, B.S.H.S., 393 Cowley Road, Oxford.

*The British Journal for the History of Science* is published by the Society. Four parts constitute one Volume; each part contains approximately 100 pages. The cover of each issue has a consecutive number for ease of collation in subsequent binding, e.g. No. 16 will be numbered: Vol. iv Part iv No. 16, and No. 17 will be: Vol. v Part i No. 17.

Order Forms, with lists of contents of Parts already published, are obtainable from: *British Journal for the History of Science*, HEADLEY BROTHERS LTD., ASHFORD, KENT, ENGLAND, to whom Orders for the Journal should be sent.

Whole Cloth Binding Cases lettered in Gold on spine and particulars of binding costs may also be obtained from HEADLEY BROTHERS LTD.
