IN closing the Fifth Volume of the GEOLOGICAL MAGAZINE, we cannot omit to express our sincere thanks to our numerous friends, especially to those who have furnished the ORIGINAL ARTICLES, which, as a matter of course, are the very foundation of this volume. We welcome some as new Geological contributors, but the chief names are of old and valued supporters who have from the outset given us their aid.

Our volume for 1868 contains articles by Messrs. T. P. Barkas; Thos. Belt, C.E., F.G.S.; E. Billings, F.G.S.; W. Carruthers, F.L.S., F.G.S.; Thos. Davidson, F.R.S., F.G.S.; D. C. Davies; T. Wilson, M.A., F.G.S.; S. V. Wood, junr., F.G.S.; B. H. Woodward, &c.

Besides these, we are indebted for NOTICES and REVIEWS to many gentlemen whose names we have not authority to publish, but to whom we sincerely tender our thanks.

Nor have we failed to receive a goodly array of LETTERS, which, like the ORIGINAL ARTICLES, treat '*de omnibus rebus et quibusdam aliis*' in Geology and Palæontology, and, as far as our space has permitted, we have given to each and all a place. We must, however, again beg our Correspondents to make their letters as concise as possible, so as to allow of the insertion of as much variety both of matter and opinion as can be; bearing in mind that a single letter by its length often shuts out several other communications equally deserving of a place.

In the matter of Typography and Illustrations, the ARTISTS, PRINTERS, and PUBLISHERS have done their very best; and if only more Subscribers will lend us their aid, we promise them a hundred-fold in return.

Lastly—If they have not done so already, Annual Subscribers are earnestly requested to send in their names and subscriptions to MESSRS. TRÜBNER & Co., 60, Paternoster Row, London, E.C.

The GEOLOGICAL MAGAZINE can be obtained through all Booksellers in town or country; but if any difficulty or delay arises through this method of procuring it, the Publishers will always be happy to send it direct per post.
