

Nutrition Research Reviews, published annually by Cambridge University Press, presents authoritative and critical reviews of research that advance new concepts and encourage fresh thinking on a variety of nutritional problems. The journal's main objective is to encourage the exchange of fundamental ideas on nutritional well-being. The subscription (excluding VAT) to volume 9, 1996, is £50 including postage (US \$90 in USA, Canada and Mexico).

The Proceedings of the Nutrition Society, published by Cambridge University Press, in part record meetings of the Symposium type, at which experts in a particular field are invited by Council to make contributions on specific parts of it and at which general discussion follows these invited contributions. The meetings also include sessions at which papers are communicated by members and others on original work. It is proposed at present to publish summaries of the papers read at each meeting, each communication being recorded in the Society's *Proceedings* by means of an abstract not exceeding in length 400 words or the equivalent space in print. The *Proceedings* are published three times a year.

The subscription (excluding VAT) to the *Proceedings* is £144.00 (US \$264.00 in USA, Canada and Mexico). Single issues are £53.00 (US \$98.00 in the USA, Canada and Mexico) each; postage extra.

Copying. This journal is registered with the Copyright Clearance Center, 222 Rosewood Drive, Danvers, MA 01923. Organizations in the USA who are also registered with C.C.C. may therefore copy material (beyond the limits permitted by sections 107 and 108 of the US copyright law) subject to payment to C.C.C. of the per-copy fee of \$11.00. This consent does not extend to multiple copying for promotional or commercial purposes. Code 0007-1145/96 \$11.00+.10. Organizations authorized by the Copyright Licensing Agency may also copy material subject to the usual conditions.

ISI Tear Sheet Service, 3501 Market Street, Philadelphia, Pennsylvania 19104, USA, is authorized to supply single copies of separate articles for private use only.

For all other use, permission should be sought from Cambridge or the American Branch of Cambridge University Press.

Information of *The British Journal of Nutrition* and all other Cambridge journals is available on <http://www.cup.cam.ac.uk/> and in North America on <http://www.cup.org/>.

CONTENTS

Guest Editorial

Why are dietary nucleotides essential nutrients? *George K. Grimble* 475-478

Human and Clinical Nutrition

Dietary supplementation and rapid catch-up growth after acute diarrhoea in childhood. *Simon Hoare, Sally D. Poppitt, Andrew M. Prentice & Lawrence T. Weaver* 479-490

Conversion of [¹⁵N]ammonia into urea and amino acids in humans and the effect of nutritional status. *P. J. M. Weijs, A. G. Calder, E. Milne & G. E. Lobley* 491-499

Animal Nutrition

Digestion of ¹⁴C-labelled condensed tannins from *Desmodium intortum* in sheep and goats. *R. A. Perez-Maldonado & B. W. Norton* 501-513

The effects of condensed tannins from *Desmodium intortum* and *Calliandra calothyrsus* on protein and carbohydrate digestion in sheep and goats. *R. A. Perez-Maldonado & B. W. Norton* 515-533

The effect of condensed tannins in *Lotus pedunculatus* on the solubilization and degradation of ribulose-1,5-bisphosphate carboxylase (EC 4.1.1.39; Rubisco) protein in the rumen and the sites of Rubisco digestion. *W. C. McNabb, G. C. Waghorn, J. S. Peters & T. N. Barry* 535-549

Apparent ileal dry matter and crude protein digestibility of rations fed to pigs and determined with the use of chromic oxide (Cr₂O₃) and acid-insoluble ash as digestive markers. *P. van Leeuwen, A. Veldman, S. Boisen, K. Deuring, G. J. M. van Kempen, G. B. Derksen, M. W. A. Verstegen & G. Schaafsma* 551-562

Replacement of inorganic phosphorus by microbial phytase for young pigs fed on a maize-soyabean-meal diet. *E. T. Kornegay & H. Qian* 563-578

General Nutrition

Morphological changes in hepatocytes of rats deprived of dietary nucleotides. *Ana T. López-Navarro, Juan D. Bueno, Angel Gil & Antonio Sánchez-Pozo* 579-589

Organ-selective growth in the offspring of protein-restricted mothers. *Mina Desai, Nigel J. Crowther, Alan Lucas & C. Nicholas Hales* 591-603

Nutrition in pregnant or lactating rats programs lipid metabolism in the offspring. *A. Lucas, B. A. Baker, M. Desai & C. N. Hales* 605-612

The effect of phytohaemagglutinin at different dietary concentrations on the growth, body composition and plasma insulin of the rat. *S. Bardocz, G. Grant, A. Pusztai, M. F. Franklin & A. de F. F. U. Carvalho* 613-626

Polyamine and intestinal properties in adult rats. *Patricia Delder, Guy Dandriofosse, Catherine Bartholomeus, Nadine Romain, Monique Klimek, José Salmon, Paul Gerard, Guy Goessens & Hendrik Eyssen* 627-637
