Editor

Stevan Harnad

Assistant Editor

Helaine Randerson

Associate Editors

Animal Intelligence

David Premack

Department of Psychology, University of Pennsylvania

Behavioral Biology

Hans Kummer

Zoologisches Institut und Museum der Universität Zürich

Cognition and Artificial Intelligence

Zenon Pylyshyn

Department of Psychology, University of Western Ontario

Ethology and Neuroethology

John C. Fentress

Department of Psychology, Dalhousie University, Halifax, N.S.

Higher CNS Function

Robert W. Doty

Center for Brain Research, University of Rochester

History and Systems

Julian Jaynes

Department of Psychology, Princeton University

Language and Cognition

Peter Wason

Psycholinguistics Research Unit, University College London

Neurobiology

Graham Hoyle

Department of Biology, University of Oregon

Neurophysiology

Barry H. Smith

Surgical Neurology Branch

National Institutes of Health, Bethesda, Md.

Neuropsychology

Karl Pribram

Department of Psychology, Stanford University
