Cases on Criminal Law

J. W. C. TURNER

and

A. LI. ARMITAGE

This new textbook of case-law is based on the eighth edition of Kenny's *Cases on Criminal Law* and is arranged to follow the order of subjects in the new sixteenth edition of Kenny's *Outlines*, to which it serves as a companion volume. Cases decided up to June, 1952, are incorporated and there is an Appendix on *Teper v. Reginam*. 45s. net

KENNY'S Outlines of Criminal Law

NEW EDITION BY

J. W. C. TURNER

Kenny's *Outlines* first appeared in 1902. Since that date it has run to fifteen editions and has been reprinted twenty times. New developments and new problems in criminal law since the author's death have now made necessary a thorough revision of the whole work, which has been carried out by Mr J. W. C. Turner, Barrister-at-Law and Fellow of Trinity Hall, Cambridge. This sixteenth edition, entirely redesigned and reset, runs to 576 pages. 42s. net

CAMBRIDGE UNIVERSITY PRESS

THE ENGLISH LEGAL SYSTEM

A. K. R. Kiralfy

This book is especially designed for students of the English Legal System in the course for the Intermediate LL.B. of the University of London. This one book covers all the topics of the syllabus. It is written without assuming any prior knowledge of the subject, and technical terms are explained or illustrated as they occur.

TEXTBOOK ON TORT

Sir P. H. Winfield

'Professor Winfield's textbook is a classic in the high tradition of Cambridge Scholarship, and it has already enjoyed the honour of citation in numerous judgments. Its two outstanding qualities are its lucidity and the studied moderation of statement with which Professor Winfield treats controversial topics. . . .'*—The Solicitor*

Sixth Edition by T. Ellis Lewis

GUIDE TO THE LEGAL PROFESSION

M. W. Maxwell

'This valuable guide, which might well be in the hands of all those who contemplate making the law their profession, provides all the information which the aspirant needs in regard to the steps which must be taken to achieve that end, whether his goal be the barristers' or solicitors' branch, and gives useful hints concerning the special qualifications required for each.'*—Law Times*

THE LIBRARY OF WORLD AFFAIRS

THE COMMUNIST THEORY OF LAW

HANS Kelsen

This is the first comprehensive study of the theory of law based on the 'materialistic' or economic interpretation of society inaugurated by Karl Marx.

'The Communist Theory of Law' examines the Communist doctrine that the law is an ideological superstructure with the relationships of economic production as its real basis. The study points up the contradictions implied in this doctrine and the related tendency to make a Communist political instrument out of the science of law.

PRESTON & NEWSOM

RESTRICTIVE COVENANTS

AFFECTING FREEHOLD LAND

Will this building infringe a covenant? If so, what can be done to escape liability? Questions such as these are daily becoming more pressing, now that building is relatively free from control. The new edition sets out the present law and practice and takes account of the important developments due to the creation of the Lands Tribunal, which now enjoys the power to discharge or modify restrictive covenants

CRIMINAL LAW

THE GENERAL PART

Glanville L. Williams

‘Sometimes a reviewer has to criticise the book he is reviewing. Sometimes he feels he can, perhaps hesitatingly, commend the work. But only in exceptional cases is it his privilege to be able to welcome the book with acclaim. Glanville Williams’s book is undoubtedly one of these exceptional cases. It is indeed a stimulating treatise of great merit. It should be added at once, however, that this is no surprise, for we have learnt to expect no less from Professor Glanville Williams.

‘This volume deals with “The General Part” of criminal law. The underlying principles of topics such as *mens rea*, vicarious responsibility, mental abnormality, attempt and the criminal liability of corporations, are critically examined. Although the work is complete in itself, the author hopes to follow it later with a companion volume on specific crimes.

‘On the dust-cover of the book it is said: “Criminal law has been called the Cinderella of legal science, for its growing importance in practice has not been matched in thought and literature.” Again, one sometimes hears the remark that “there is no law in criminal law.” In his *Criminal Law* Professor Glanville Williams has given the lie to both these statements, for, if one may venture a prophecy, Glanville Williams’s book will take its place in the forefront not only of the literature on this branch of law but of jurisprudential works as well.’—*South African Law Journal*.

EXECUTIVE DISCRETION AND JUDICIAL CONTROL

C. J. HAMSON

'The French Conseil d'Etat reviews and controls the grounds and substance of court decisions on administrative law. In England, such control is exercised by the High Court which controls their formal, external, legality only. In this latest series of Hamlyn Lectures, the author, who is Professor of Comparative Law in the University of Cambridge, makes direct comparison between the practice of the two countries and offers suggestions for possible changes in English procedure.'—*British Book News*

THE HAMLYN LECTURES

'The purpose of the trust lectures is to further the knowledge among the people of this country of our system of law "so that they may realise the privileges they enjoy and recognise the responsibilities attaching to them." Indeed, the awakening of the responsibilities resting upon each one of us in preserving the priceless heritage of the Common Law is clearly the purpose and message of this particular series, and there can be none amongst us, however eminent and erudite, who would not benefit by a study of them.'—*Law Journal*
