

Index of Authors

Small roman numerals refer to pages in Abstracts of Communications read at Meetings for Original Communications of The Nutrition Society.

Entries marked with an asterisk () are those printed only by title.*

- AAES-JØRGENSEN, E. Hydrogenated oils and poly-unsaturated fatty-acid isomers in nutrition 156
 ADAMS, E. P. *see* BENDER, A. E. xxiv
 ANDERSEN, D. A. The nutritional significance of primary bladder stones xlv
 ANDROSS, M. Flavour and flavour acceptance 40
 AYKROYD, W. R. The place of food science and technology in the campaign against mal-nutrition: Chairman's opening remarks 91
 AYLWARD, F. Some African problems 112
- BATH, I. H. and ROOK, J. A. F. The effect of stage of growth of S 23 perennial rye-grass on the production of volatile fatty acids in the rumen of the cow xv
 BENDER, A. E. and ADAMS, E. P. An investigation of suggested physiological functions of carnitine xxiv
 BERRY, W. T. C. *see* KILPATRICK, R. xxxvii
 *BLAKE, E. C. and DURNIN, J. V. G. A. The food intake and energy expenditure of some elderly men working in heavy and light engineering xxxii
 BLAXTER, K. L., MCCALLUM, E. S. R., WILSON, R. S., SHARMAN, G. A. M. and DONALD, L. G. Prevention of enzootic muscular dystrophy by selenium administration vi
 BLAXTER, K. L. and WAINMAN, F. W. The utilization of the energy of the same food by cattle and sheep xxxiii
 BLAXTER, K. L. *see also* MARTIN, A. K. vii
 BOLTON, W. The absorption of food from the gut of the fowl xxv
 BOLTON, W. *see also* SILLER, W. G. 163
 BOYNE, A. W. *see* DAVIDSON, J. xxxv
 BRAMWELL, E. M. Diet of London busmen—a sample study 30
- CAMPLING, R. C. and FREER, M. The effect of urea on the voluntary intake of oat straw by cattle xvi
 CHALMERS, T. M. Adipose tissue metabolism and calorie balance 68
 CHARLSON, E. B. *see* PRESTON, T. R. xlii
 CLAPPERTON, J. L. The energy expenditure of sheep in walking on the level and on gradients xxxi
 CLARK, C. M. *see* MUNRO, H. N. xxvi
 COOK, R. P. Biochemistry and metabolism of fats 140
- CORRAN, J. W. Factors affecting development of food science and technology and food research in Pakistan 128
 CROSSLEY, A. The chemistry of the animal and vegetable fats in relation to their utilization and industrial processing 143
 CUTHBERTSON, W. F. J. The commercial development of a protein-rich food supplement in Nigeria 122
- DALGARNO, A. C. *see* QUARTERMAN, J. xxviii
 DAVIDSON, J., ELLINGER, G. M. and BOYNE, A. W. Amino-acid supplementation of an experimental diet for laying hens xxxv
 DONALD, L. G. *see* BLAXTER, K. L. vi
 DURBIN, P. A. J. *see* HEARD, C. R. C. xx
 DURNIN, J. V. G. A. Basic physiological factors affecting calorie balance 52
 DURNIN, J. V. G. A. The availability of nutrients in diets containing differing quantities of unavailable carbohydrate: a study on young and elderly men and women. 1. General description and proportionate losses of calories ii
 *DURNIN, J. V. G. A. *see also* BLAKE, E. C. xxxii
- EDHOLM, O. G. Energy expenditure and calorie intake in young men 71
 ELLINGER, G. M. *see* DAVIDSON, J. xxxv
- FELL, B. F., WILLIAMS, R. B. and MILLS, C. F. Further studies of nervous-tissue degeneration resulting from 'conditioned' copper deficiency in lambs xxvii
 FRANKUL, W. Problems and some solutions: Iraq 102
 FRAZER, A. C. Animal and vegetable fats: Chairman's opening remarks 138
 FREER, M. *see* CAMPLING, R. C. xvi
 FRYER, J. H. Studies of body composition in men aged 60 and over xlvi
 FRYER, J. H., MILLER, D. S. and PAYNE, P. R. A calorie paradox? xlix
- GOODLAD, G. A. J. *see* MUNRO, H. N. xxvi
 GREENE, R. The effects of the endocrine system on calorie balance in man 64
 GREGORY, M. E. *see* MORGAN, T. B. ix
 GRESHAM, G. A. *see* HOWARD, A. N. iv, xxxviii

- HALDER, K. Problems and some solutions: India 95
- HEARD, C. R. C., DURBIN, P. A. J. and PLATT, B. S. Delayed maturation of protein-deficient pigs as indicated by response to intravenous insulin and glucose xx
- HEARD, C. R. C., MEYER, A., PAMPIGLIONE, G., STEWART, R. J. C. and PLATT, B. S. Clinical, electroencephalographic and pathological changes in the nervous system of experimental animals 1
- HENSCHEL, M. J., HILL, W. B. and PORTER, J. W. G. The development of proteolytic enzymes in the abomasum of the young calf xl
- HENSCHEL, M. J., HILL, W. B. and PORTER, J. W. G. Proteolysis of milk and synthetic milks in the abomasum of the young calf xli
- HENSCHEL, M. J. and PORTER, J. W. G. The development of the secretion of proteases and carbohydrases in the guinea-pig xxxiii
- HERFORD, G. V. B. Losses resulting from the infestation of stored products by insects 11
- HILL, W. B. *see* HENSCHEL, M. J. xl, xli
- HOCKEN, R. W. The relationship of the leakage of bone marrow and the staining of the legs of broiler carcasses to the bone calcification and sex of the bird xxii
- HOLLINGSWORTH, D. F. The changing patterns in British food habits since the 1939-45 war 25
- HORNE, J. N. *see* KILPATRICK, R. xxxvii
- HOWARD, A. N. and GRESHAM, G. A. The effect of natural and synthetic fats on the production of atherosclerosis and thrombosis in the rat iv
- HOWARD, A. N. and GRESHAM, G. A. Lipid concentrations in rabbits given atherogenic diets xxxviii
- HOWARD, B. H. Fermentation of pectin by rumen bacteria xxix
- HUGHES, D. E. and WILSON, D. C. Thyroid activity and the dental enamel v
- HYTTEN, F. E. *see* THOMSON, A. M. 76
- JAMIESON, M. M., OXENHAM, J. and ROBERTSON, J. Fat absorption by white bread during frying xxii
- JONES, F. G. W. Nematode injury to crops 1
- JONES, H. G., MACKIE, W. S. and SANSOM, B. F. Metabolism of radiocalcium and radiostrotrium in the ewe xxxiv
- KENNEDY, G. C. The central nervous regulation of caloric balance 58
- KHAIRY, M., MORGAN, T. B. and YUDKIN, J. The choice of diets of differing caloric density by normal and hyperphagic rats xxxix
- KILPATRICK, R., BERRY, W. T. C. and HORNE, J. N. The influence of iodine supplementation on the incidence of thyroid enlargement in schoolchildren xxxvii
- KÖKSAL, O. Problems and some solutions: Turkey 99
- KON, S. K. *see* MORGAN, T. B. ix
- LARGE, E. C. Disease losses in potatoes 15
- LEAT, W. M. F. The role of α -tocopherol in the pig iii
- LEAT, W. M. F. Essential fatty-acid (EFA) requirement of the pig. 2 xvi
- LEECH, F. B. Food losses through animal disease 20
- MCCALLUM, E. S. R. *see* BLAXTER, K. L. vi
- MCLACHLAN, T. Soup: an appetizer or a food 1
- MACDEARMID, A. *see* PRESTON, T. R. xlii
- MACDONALD, I. Some effects on hepatic lipid of varying the dietary carbohydrate intake xxv
- MACDONALD, I. and WARREN, P. J. The copper content of the liver and hair in kwashiorkor xxxvi
- MCDONALD, I. *see* QUARTERMAN, J. xxviii
- MACKIE, W. S. *see* JONES, H. G. xxxiv
- MACLEOD, N. A. *see* PRESTON, T. R. xlii
- MCROBERTS, M. R. A dental malocclusion associated with rickets in growing lambs xxxvii
