

THE JOURNAL OF HYGIENE

(Founded in 1901 by G. H. F. Nuttall, F.R.S.)

EDITED BY

G. S. GRAHAM-SMITH, M.D., F.R.S.

READER EMERITUS IN PREVENTIVE MEDICINE IN THE UNIVERSITY OF CAMBRIDGE

IN CONJUNCTION WITH

SIR JOHN LEDINGHAM, C.M.G., M.B., D.Sc., F.R.S.,
Professor Emeritus of Bacteriology in the University of London,
Formerly Director of the Lister Institute, London.

M. GREENWOOD, D.Sc., F.R.C.P., F.R.S.,
Professor of Epidemiology and Vital Statistics in the University of London.

SIR DAVID MUNRO, K.C.B., C.I.E., M.B.,
Chief Medical Officer, Ministry of Supply.

and REGAIN

ELASTOPLAST Technique was evolved with "Elastoplast" Bandages and Dressings. The successful results described in the medical press and reprinted in the handbook "Elastoplast Technique" were achieved with "Elastoplast" Bandages and Dressings. The combination of the particular adhesive spread used in making "Elastoplast," with the remarkable stretch and regain properties of the "Elastoplast"

cloth, provides the precise degree of COMPRESSION and GRIP shown by clinical use to be essential to the successful practice of the technique.

These properties, peculiar to "Elastoplast," have produced a bandage used for many years with outstanding success by the Medical Profession throughout the world.

Note: "Elastoplast" has a SOFT non-fray edge.

Elastoplast Technique — New Edition. Supplies of the tenth edition of "Elastoplast Technique" are limited, but there are sufficient for members of the medical profession who do not already possess a previous edition. Please write to the Medical Department of the manufacturers, address below.

Elastoplast
TRADE MARK BRAND

"Elastoplast" Bandages and Plasters are made in England by T. J. Smith & Nephew Ltd., Hull

CONTENTS

PAGE

No. 1 (JANUARY 1943)

EDWARD, D. G. ff., ELFORD, W. J. and LAIDLAW, P. P. (the late). Studies on air-borne virus infections. I. Experimental technique and preliminary observations on influenza and infectious ectromelia. (With 1 Figure in the Text)	1
EDWARD, D. G. ff., LUSH, DORA and BOURDILLON, R. B. Studies on air-borne virus infections. II. The killing of virus aerosols by ultra-violet radiation. (With 1 Figure in the Text)	11
CHALLINOR, S. W. Bacteriological observations on the air of occupied premises. I. Air disinfection with hypochlorites. A simple practical method of disinfecting the air of occupied premises. (With 4 Figures in the Text)	16
BENJAMIN, B. Height and weight measurements of school children. (With 1 Figure in the Text)	55
SPIRA, LEO. Mottled nails. An early sign of fluorosis. (With Plate 1, containing Figs. 1-12)	69
COLIN-RUSS, A. Further studies on foot perspiration and its action on footwear. (With 1 Figure in the Text)	72

No. 2 (APRIL 1943)

STEABBEEN, DOROTHY. A study on bacteriological lines of the antigens derived from <i>Bact. dysenteriae</i> Shiga and of their antisera in protective tests against the living organisms	83
HOBBS, BETTY C. and WILSON, G. S. The cleaning and sterilization of milk bottles	96
IRWIN, J. O. On the calculation of the error of biological assays	121
BARKWORTH, H. and IRWIN, J. O. Comparative detection of coliform organisms in milk and water by the presumptive coliform test. With an appendix on the possible bactericidal effect of bile salt	129
STEWART, F. H. A review of some recent work on papillary variation in bacteria and bacterial cytology	136
SPIRA, LEO and GRIMBLEBY, F. H. Fluorine in drinking water	141

No. 3 (SEPTEMBER 1943)

KNOX, R., GELL, P. G. H. and POLLOCK, M. R. The selective action of tetrathionate in bacteriological media. A report to the Medical Research Council. (With Plate 2 and 1 Figure in the Text)	147
MURRAY, J. F. Diphtheria amongst the Bantu	159
MURRAY, J. F. Bantu immunity to scarlet-fever toxin	170
SHATTOCK, P. M. F. and MATTICK, A. T. R. The serological grouping of <i>Streptococcus lactis</i> (group N) and its relationship to <i>Streptococcus faecalis</i>	173
VAN DEN ENDE, M. An apparatus for the safe inoculation of animals with dangerous pathogens. With an Appendix by A. J. G. Hubbard. (With Plate 3 and 3 Figures in the Text)	189
EDWARD, D. G. ff. and LIDWELL, O. M. Studies on air-borne virus infections. III. The killing of aerial suspensions of influenza virus by hypochlorous acid. (With 1 Figure in the Text)	196
PIJPER, ADRIANUS and CROCKER, CLARICE G. Typhoid carriers and Vi agglutinins	201
HITCH, SURGEON CAPTAIN F. G., ASHCROFT, SURGEON CAPTAIN L. S. and GREEN, SURGEON COMMANDER C. A. Antigenicity of T.A.B.C. vaccine after admixture with tetanus toxoid for various periods. (With 1 Figure in the Text)	207
BARRITT, MAXWELL M. Notes on the α -naphthol modification of the Voges-Proskauer test and reference to the creatine modification	214
LOUREIRO, J. A. DE. A new principle for the production of thiamin-deficient diets and for the biological assay of thiamin in foodstuffs	217

No. 4 (JANUARY 1944)

DAVIDSON, W. A. and BRODIE, JAMES. Observations on an epidemic of paratyphoid fever in Dundee, 1941	219
GRIFFITH, THE LATE A. STANLEY and MUNRO, W. T. Human pulmonary tuberculosis of bovine origin in Great Britain. (With 1 Figure in the Text)	229
GRIFFITH, A. N. A note on the seven papers by the late A. Stanley Griffith published during 1941-2	241

	PAGE
STOCKS, PERCY. Diabetes mortality in 1861–1942 and some of the factors affecting it. (With 4 Figures in the Text)	242
TWORT, J. M. and LYTH, R. Concentration of the carcinogenic material in a Venezuelan spindle oil by simultaneous molecular distillation and chromatographic adsorption	248
TWORT, J. M. and LYTH, R. The prophylactic effect of a colloid material on the skins of mice painted with various types of carcinogenic agents	252
EDWARD, DERRICK G. ff. Haemolytic streptococci in the dust of hospital wards, and their relationship to infection. A report to the Medical Research Council. (With 3 Figures in the Text)	256
STAMP, LORD and STONE, DORIS M. An agglutinin common to certain strains of lactose- and non-lactose-fermenting coliform bacilli	266
HORGAN, E. S. and MANSOUR ALI HASEEB. Some observations on accidental vaccinations on the hands of workers in a vaccine lymph institute	273
JORDAN, R. C. and JACOBS, S. E. Studies in the dynamics of disinfection. I. New data on the reaction between phenol and <i>Bact. coli</i> using an improved technique, together with an analysis of the distribution of resistance amongst the cells of the bacterial populations studied. (With 10 Figures in the Text)	275
No. 5 (APRIL 1944)	
IRWIN, J. O. A statistical examination of the accuracy of vitamin A assays. An analysis of three co-operative experiments designed to ascertain the value of the conversion factor for transforming spectrophotometric values into international units	291
MARTIN, W. J. The sex ratio of pneumonia mortality	315
EDWARDS, J. L. An atypical <i>Neisseria</i> causing meningitis	328
DAY, H. B. Studies in immunization by a species antigen. II. The presence of 'species antigen' and of 'opposition factor' in bacteria other than pneumococci	330
HORGAN, E. S. and MANSOUR ALI HASEEB. Revaccination as a measure of immunity to smallpox	337
CARTER, H. S. Diphtheria in Glasgow 1934–42. (With 1 Figure in the Text)	341
BYROM, F. B. A pressure-operated safety circuit for use in high-vacuum serum-drying plants. (With 2 Figures in the Text)	349
PULVERTAFT, R. J. V. The use of antiseptic sprays for air sterilization. A summary of a report to the Medical Research Council	352
DERRICK, E. H. The epidemiology of Q fever. (With 1 Figure in the Text)	357
No. 6 (SEPTEMBER 1944)	
JORDAN, R. C. and JACOBS, S. E. Studies in the dynamics of disinfection. II. The calculation of (the concentration exponent for phenol at 35° C. with <i>Bact. coli</i> as test organism. (With 3 Figures in the Text)	363
Corrigendum	369
HAINES, the late R. B. and ELLIOT, E. M. L. Some bacteriological aspects of dehydrated foods. (With 2 Figures in the Text)	370
BAKER, A. H. and TWORT, C. C. Germicidal mists and vapours in air disinfection	382
HAMMOND, W. H. Factor analysis as an aid to nutritional assessment	395
SPIRA, LEO. Some epithelial changes in fluorosis	400
SPIRA, LEO. Incidence of dystrophies caused by fluorine in organs regulated by the parathyroid glands. (With Plate 4)	402
BOYCOTT, G. W. M. The application of the principle of partial pressure of gases to Haldane's method of stage decompression	409
MACNAUGHTAN, JEAN. The typing of strains of <i>Bact. paratyphosum</i> B by the biochemical method of Kristensen and Bøjlen	411
ROBINOW, C. F. Cytological observations on <i>Bact. coli</i> , <i>Proteus vulgaris</i> and various aerobic spore-forming bacteria with special reference to the nuclear structures. (With Plates 5–8, and 3 Figures in the Text)	413
ALLEN, L. A. The bacteriology of activated sludge	424
INDEX OF AUTHORS	432
INDEX OF SUBJECTS	433
