

Subscription rates

Subscription rates for volume 41 (2004) of *Journal of Applied Probability* are as follows (post free and including online access at <http://projecteuclid.org/jap>):

US\$240.00; \$A390.00; £150.00 for libraries and institutions;

US\$80.00; \$A130.00; £50.00 for individuals belonging to a recognised scientific society.

Members of the London Mathematical Society should apply direct to the Society for subscription to the *Journal*. The subscription rates for volume 36 (2004) of *Advances in Applied Probability*, the companion publication, are the same; if both journals are ordered directly from the Applied Probability office at the same time, the combined price is discounted by 10%. Please send all enquiries to: Applied Probability Subscriptions, School of Mathematics and Statistics, University of Sheffield, Sheffield S3 7RH, UK (telephone +44 114 222 3922, fax +44 114 272 9782, email s.c.boyles@sheffield.ac.uk). Cheques, money orders, etc. should be made payable to 'Applied Probability'. Payment is acceptable in US, Australian or UK currency or by Visa or Mastercard. We can provide back issue prices on application.

Notes for contributors

Papers published in *Journal of Applied Probability* are of two kinds:

- (i) *research papers* not exceeding 20 printed pages;
- (ii) *short communications* of a few printed pages in the nature of notes or brief accounts of work in progress.

Letters relating specifically to papers which have appeared in *Journal of Applied Probability* will also be published. *Review papers*, *longer research papers* and *letters to the Editor* are published in *Advances in Applied Probability*, a companion publication.

It is the policy not to accept for publication papers which cannot appear in print within 15 months of the date of receipt of the final version; in order to meet this deadline, an accepted paper may be published in either journal, according to the space available.

Fifty offprints of each paper will be provided free; additional offprints are available at cost.

Papers submitted to the Applied Probability journals are considered on the understanding that they have not been published previously and are not under consideration by another publication. Accepted papers will not be published elsewhere without the written permission of the Trust. Papers should be written in English or French; papers in other languages may be accepted, but will appear (subject to the author's agreement) in English or French translation.

Papers should include: (i) a short abstract of 4–10 lines giving a non-mathematical description of the subject matter and results; (ii) a list of keywords detailing the contents; (iii) classifications according to the 2000 Mathematics Subject Classification. Letters to the Editor need not include these.

To assist authors in writing papers in the Applied Probability style, they may use the LATEX class file `aptpub.cls`, which may be obtained from <http://www.appliedprobability.org/>. Use of this class file is not a condition of submission. For instruction on how papers may be submitted electronically, please consult the notes for contributors at the above URL.

All submission should be sent to the Applied Probability office in Sheffield, rather than to individual editors. Three copies of the paper, at least one of which should be double spaced, should be sent to:

**Executive Editor, Applied Probability, School of Mathematics and Statistics,
University of Sheffield, Sheffield S3 7RH, UK.**

Copyright

The copyright of all published papers is vested in the Applied Probability Trust. When a paper is accepted for publication, the Trust asks the authors to assign copyright by signing a form in which the terms of copyright are listed. Failure to do this promptly may delay or prevent publication.

Authorisation to photocopy items for internal or personal use, or the internal or personal use of specific clients, is granted by the Applied Probability Trust for libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service, provided that the base fee of \$0.70 per copy plus 0.20 per page is paid directly to CCC, 222 Rosewood Drive, Danvers, MA 01923, USA (<http://www.copyright.com>). 0021-9002/04 \$0.70 + 0.20.

Printed in Israel by N. Ben-Zvi Printing Enterprises Ltd., Jerusalem.
