11 Seconds Are like Hours When 1 You Need to Access Important Medical Information

Access hours of information in seconds with the Grateful Med software of the NLM

If you need quick and easy access to the most up-to-date information on health care services, medical research, toxic and chemical substances, cancer, AIDS, or other health care issues, you need GRATEFUL MED.

Developed by the *National Library of Medicine*, the world's largest medical library, the GRATEFUL MED software package assists the user in finding the most current literature available through the use of on-line computer databases. All you need is a personal computer (IBM or Macintosh) and an access code from the NLM, and you have immediate access to a vast field of important medical information. Around-the-clock availability ensures that you have this information when you need it.

Good medicine for your information needs

For complete medical information around the clock...
