Editorial	
2009 – the year of solutions?	1
<i>A Yngve</i>	
In this issue	2
<i>R Hughes</i>	
Criterion validity and user acceptability of a CD-ROM-mediated food record for measuring fruit and vegetable consumption among black adolescents	3
<i>J Di Noia and IR Contento</i>	
Refinement and validation of an FFQ developed to estimate macro- and micronutrient intakes in a south Indian population	12
<i>R Iqbal, K Ajayan, AV Bharathi, X Zhang, S Islam, CR Soman and AT Merchant</i>	
Breakfast skipping is associated with differences in meal patterns, macronutrient intakes and overweight among pre-school children	19
<i>L Dubois, M Girard, MP Kent, A Farmer and F Tatone-Tokuda</i>	
Experimental approach to measuring functional food consumption for risk factor surveillance	29
<i>S Beer-Borst, MC Costanza and A Morabia</i>	
Five-year incidence of obesity and its determinants: the ATTICA Study	36
<i>M Yannakoulia, D Panagiotakos, C Pitsavos, Y Lentzas, C Chrysohoou, I Skoumas and C Stefanadis</i>	
Changes in the sensation of hunger and well-being before and after meals in overweight/obese women following two types of hypoenergetic diet	44
<i>E Rodríguez-Rodríguez, A Aparicio, LM Bermejo, AM López-Sobaler and RM Ortega</i>	
Phytosterol-enriched products on the Irish market: examination of intake and consumption patterns	51
<i>A Hearty, E Duffy, J Joyce, C O'Connor and MJ Gibney</i>	
A comparative study of selenium concentration and glutathione peroxidase activity in normal and breast cancer patients	59
<i>M Moradi, MH Eftekhari, A Talei and AR Fard</i>	
Predictors of trying to lose weight among overweight and obese Mexican-Americans: a signal detection analysis	64
<i>A Bersamin, KD Hanni and MA Winkleby</i>	
What do pedometer counts represent? A comparison between pedometer data and data from four different questionnaires	74
<i>KA De Cocker, IM De Bourdeaudhuij and GM Cardon</i>	
Nutritional assessment interpretation on 22 007 Spanish community-dwelling elders through the Mini Nutritional Assessment test	82
<i>M Cuervo, A García, D Ansorena, A Sánchez-Villegas, MA Martínez-González, I Astiasarán and JA Martínez</i>	
Towards health-promoting and environmentally friendly regional diets – a Nordic example	91
<i>E Bere and J Brug</i>	
Association of BMI and nutritional habits with hypertension in the adult population of Croatia	97
<i>AI Uhernik, M Erceg and SM Milanović</i>	
Association between commercial television exposure and fast-food consumption among adults	105
<i>M Scully, H Dixon and M Wakefield</i>	
Low dietary calcium in European postmenopausal osteoporotic women	111
<i>O Bruyere, C De Cock, C Mottet, A Neuprez, O Malaise and J-Y Reginster</i>	
Intakes of fruits, vegetables and carbohydrate and the risk of CVD	115
<i>KJ Joshipura, H-C Hung, TY Li, FB Hu, EB Rimm, MJ Stampfer, G Colditz and WC Willett</i>

CAMBRIDGE
UNIVERSITY PRESS

Public Health Nutrition provides a forum for the presentation of original research findings in the field of Public Health Nutrition. It offers a population-based approach to the practical application of research findings. The Journal provides a timely vehicle for lively discussion of current controversies. In addition, it also includes high quality reviews of key topics and seeks to identify and publish special supplements on major topics of interest to readers. As a contributor you should note and follow the guidelines set out below.

Content:

- Original research findings – published as either full papers of 4000 words, not including tables, figures or references, or Short Communications of about 2000 words on key issues, fast-tracked through the editorial system.
- Topical review papers – the Editors will invite topical reviews and also consider suggestions from authors who should submit an outline of the review in the first instance.
- Editorial comment – including guest editorials on key papers published in the journal.
- Letters to the Editors – addressing material published in *Public Health Nutrition*.

Submission: All manuscripts must be submitted onto our online submission system: <http://phn.msubmit.net>

Refereeing: All contributions are read by two or more referees to ensure both accuracy and relevance, and revision may thus be required before final acceptance. Authors are asked to submit the names and contact details (including email address if available) of up to four potential referees for their paper. On acceptance, contributions are subject to editorial amendment to conform to house style.

Copyright: At the time of acceptance the authors will be asked to provide a completed copy of the 'Licence to Publish' (in lieu of copyright transfer), which is available on the Nutrition Society's web pages (<http://www.nutritionociety.org>). It is the author's responsibility to obtain written permission to reproduce any material (including text and figures) that has appeared in another publication.

Preparation of Manuscripts: Please refer to our Full Directions to Authors on our website: (<http://www.nutritionociety.org>). You should write in clear and concise English and spelling should follow the Oxford English Dictionary. Authors whose native tongue is not English are assured that in-house editorial attention to their contributions will improve clarity.

Manuscripts should be prepared in a common word processing package (Word for Windows is preferred), in Times New Roman, or other common typeface, set up as double-spaced text with ample margins. Page and line numbers should be inserted. Standard abbreviations (e.g. Fig. and Figs.) and SI units must be used.

The submission must include a statement reporting any conflicts of interest, all sources of funding and the contribution of each author to the manuscript. If there are no conflicts of interest this must be stated. The author will be asked to provide this information during the submission process and should not include it as part of the manuscript. This enables double-blind reviewing.

Arrangement of Papers:

1. **Title page** including the article title, author(s), affiliation(s), keywords and one author identified for correspondence (please include the full postal address, telephone and fax numbers, and an email address where available). A short title of up to 45 characters should be provided as a running head. **The title page should be submitted online as a separate cover letter, not as part of the manuscript.** This enables double-blind reviewing.
2. A structured **abstract** using the following headings: Objective, Design, Setting, Subjects, Results, Conclusions. The abstracts should be intelligible without reference to text or figures. It should not exceed 250 words in total.
3. The **text** divided under appropriate headings.
4. **Acknowledgements** (sources of funding, conflict of interest declaration, authorship responsibilities, acknowledgements): **should be provided when requested during the submission process, not as part of the manuscript.**
5. **References** should be in Vancouver style – please refer to the full Directions to Authors.
6. **Tables** should be reduced to the simplest form and should not be used where the text or figures give the same information. Each table must be accompanied by a clear and concise caption.
7. **Figures** should be numbered and legends should be provided. Each figure, with its legend, should be comprehensible without reference to the text and should include definitions of abbreviations.

Offprints: The main author will receive a PDF of their published paper free of charge. Offprints are available to purchase and can be ordered before publication.

Proofs: Correspondence and proofs for correction will be emailed to the first named author unless otherwise indicated. The author will receive a PDF proof for checking. It is important that proofs be returned promptly. Authors may be charged for any alterations in excess of 10% of original setting.

Submission of manuscripts and correspondence: PHN operates an on-line submission and reviewing system (eJournalPress). Authors should submit to the following address: <http://phn.msubmit.net/> If any difficulties are encountered, please contact the Publications Office immediately at phn@nutsoc.org.uk

Editor-in-Chief

C. J. Newbold, Institute of Rural Science, University of Wales
Aberystwyth, UK

Proceedings of the Nutrition Society publishes papers and abstracts presented by members and invited speakers at the scientific meetings of The Nutrition Society. The journal provides an invaluable record of the scientific research currently being undertaken, contributing to 'the scientific study of nutrition and its application to the maintenance of human and animal health.'
