Proceedings of the

CAMBRIDGE PHILOSOPHICAL SOCIETY

(MATHEMATICAL AND PHYSICAL SCIENCES)

VOLUME 59

PART 1

CAMBRIDGE UNIVERSITY PRESS

BENTLEY HOUSE, 200 EUSTON ROAD, LONDON, N.W. 1

AMERICAN BRANCH: 32 EAST 57TH STREET, NEW YORK, 22 N.Y.

Price Forty-five Shillings Net (*U.S.A.* $8.00)

Subscription price per volume £8 *net post free* ($28.50 *in U.S.A.*)

January 1963

CAMBRIDGE PHILOSOPHICAL SOCIETY

FOUNDED 1819; ROYAL CHARTER 1832

Session 1962–1963

President: F. P. WHITE

Vice-Presidents: J. D. BOYD, E. J. H. CORNER, E. N. WILLMER

Treasurer: R. C. EVANS

Secretaries: (Mathematical) J. H. WILLIAMSON
(Physical) J. S. GRIFFITH
(Biological) S. SMITH

The publications of the Society consist of the *Proceedings* and of the *Biological Reviews*. The publication of *Transactions* was suspended at the end of Volume XXII.

Orders should be sent to: THE MANAGER, CAMBRIDGE UNIVERSITY PRESS, BENTLEY HOUSE, 200 EUSTON ROAD, LONDON, N.W.1. Enquiries from the U.S.A. should be addressed to the Cambridge University Press, American Branch, 32 East 57th Street, New York 22, U.S.A.

For the purchase of early parts of the *Transactions*, *Proceedings* and *Biological Reviews* application should be made to the Secretaries. All parts of the *Proceedings* (including the cumulative index to Vols. 1 to 50) and *Biological Reviews* are available, and prices of sets or single parts will be quoted on application.

Fellows and Associates of the Society are particularly requested to inform the Secretaries of any change of postal address, and to send their subscriptions to the Treasurer, CAMBRIDGE PHILOSOPHICAL SOCIETY, FREE SCHOOL LANE, CAMBRIDGE.

All correspondence regarding library exchanges and Fellows' copies should be addressed to the Secretaries at the Society's office.

PROCEEDINGS of the CAMBRIDGE PHILOSOPHICAL SOCIETY

edited by

J. H. WILLIAMSON

in consultation with

J. W. S. CASSELS	E. R. LAPWOOD	A. M. WALKER
P. C. CLEMMOW	D. W. S. SCIAMA	C. T. C. WALL
J. S. GRIFFITH	F. SMITHIES	

1. Four parts of the *Proceedings* are issued each year.

2. Communications for the *Proceedings* should be sent to *The Librarian, Cambridge Philosophical Society, Free School Lane, Cambridge*. Papers by Fellows and Associates of the Society should be communicated directly by the author. **Other papers must be communicated by a Fellow,** who in doing so should give his opinion on the suitability of the paper for publication.

3. Papers occupying more than twenty pages of print can only rarely be accepted.

4. It is recommended that each paper be prefaced by a short abstract. Copies of a *Guide for the Preparation of Synopses*, prepared by the Abstracting Services Consultative Committee and issued by the Royal Society, may be obtained from the Librarian.

5. Drawings for illustration and diagrams should be on a large scale and on smooth white Bristol board in Indian ink. Lettering should be written clear of the diagram, and the desired position of the lettering indicated by pencilled lines.

6. References should be listed at the end of each paper. Titles of journals listed in *Mathematical Reviews* should be abbreviated as in *Mathematical Reviews*, except that proper names should be given in full. First and last page numbers should be given where relevant.

7. **Authors are particularly requested to prepare their manuscripts in a form suitable for printing, with adequate margins. A pamphlet on the preparation of papers may be obtained from the Librarian. If a large number of corrections are required in the proofs, the Council reserves the right to make a charge towards the cost.**

8. Authors may receive, on request, free offprints of *Proceedings* papers (fifty for a sole author, and a smaller number for each joint author).

THE JOURNAL OF THE SOCIETY FOR INDUSTRIAL AND APPLIED MATHEMATICS

VOLUME 10, NUMBER 2, JUNE 1962

Natural Sorting. ROBERT BAER and PAUL BROCK.

Bounds for Derivatives in the Dirichlet Problem for Poisson's Equation. J. H. BRAMBLE and L. E. PAYNE.

An Optimal Algorithm, and Suboptimal Algorithms, for the Quadratic Assignment Problem. P. C. GILMORE.

An Application of Generalized Linear-Programming to Network Flows. R. E. GOMORY and T. C. HU.

Multi-Step Integration Methods. T. E. HULL and A. C. R. NEWBERY.

Exponential-Like Solutions of Systems of Linear Ordinary Differential Equations. H. B. KELLER and J. B. KELLER.

Output Probabilities in the Filter-Clip-Filter Problem. J. A. MCFADDEN, W. DOYLE and I. MARX.

Computations of Bending Modes and Mode Shapes of Single and Double Beams. E. E. OSBORNE.

General Perturbational Solution of the Mathieu Equation. R. A. STRUBLE and J. E. FLETCHER.

A Stable Difference Scheme for the Mixed Boundary Problem for a Hyperbolic, First Order System in Two Dimensions. V. THOMÉE.

Optimum Alternating-Direction-Implicit Iteration Parameters for a Model Problem. E. L. WACHSPRESS.

The Journal is published quarterly. Subscriptions are $10.00 per volume

Orders should be placed with the

SOCIETY FOR INDUSTRIAL AND APPLIED MATHEMATICS
Box 7541, Philadelphia 1, Pennsylvania, U.S.A.

ROYAL STATISTICAL SOCIETY

THE JOURNAL OF THE ROYAL STATISTICAL SOCIETY is published in two series: SERIES A (GENERAL), four issues a year, annual subscription £4. 4*s*. (U.S. $12.00) post free; SERIES B (METHODOLOGICAL), two issues a year, annual subscription £3. 2*s*. (U.S. $9.00) post free.

Contents of Series B (Methodological), Vol. 24, Part 2, 1962

Confidence sets for the mean of a multivariate normal distribution. (With Discussion.) By C. M. STEIN.

Some statistical aspects of adaptive optimisation and control. (With Discussion.) By G. E. P. BOX and G. M. JENKINS.

The general bulk queue as a Hilbert problem. By J. KEILSON.

Queues in series. By A. GHOSAL.

On the lengths of intervals in a stationary point process. By J. A. MCFADDEN.

On queues in heavy traffic. By J. F. C. KINGMAN.

Some optimal sequential schemes for estimating the mean of a cumulative normal quantal response curve. By B. L. MARKS.

Problems of selection with restrictions. By C. R. RAO.

Further results on tests of separate families of hypotheses. By D. R. COX.

On the consistency of the fiducial method. By D. A. S. FRASER.

Estimation of means and standard errors in the analysis of non-orthological experiments by electronic computer. By G. H. FREEMAN and J. N. R. JEFFERS.

On the comparison of the sensitivities of experiments. By S. N. DAR.

Approximate confidence limits for the relative risk. By J. J. GART.

The use of control observations as an alternative to incomplete block designs. By M. ATIQULLAH and D. R. COX.

A simple randomisation procedure. By M. SANDELIUS.

On a simple procedure of unequal probability sampling without replacement. By J. N. K. RAO, H. O. HARTLEY and W. G. COCHRAN.

Sampling properties of tests of goodness-of-fit for linear autoregressive schemes. By K. C. CHANDA.

Analysis of stationary processes with mixed spectra, II. By M. B. PRIESTLEY.

The use of a generalised multinomial distribution in the estimation of correlation in discrete data. By G. M. TALLIS.

Cumulants of truncated multinormal distributions. By D. J. FINNEY.

Note and a paper by Ray and Pitman. By J. GURLAND.

Obtainable through any bookseller or direct from:
