

Cambridge Journals

Fetal and Maternal Medicine Review

Fetal and Maternal Medicine Review publishes high quality reviews drawn from all relevant disciplines in this rapidly expanding field. Each issue brings together and synthesizes new information from an impressive group of international contributors. Rapid publication and a deliberate preference for authors currently active in research ensures this journal has immediate relevance to contemporary clinical practice.

Subject areas covered include developments in counselling, diagnosis, fetal pathophysiology, imaging, immunology, intervention, maternal adaptation, monitoring, nutrition, postpartum care, principles of management and therapy.

It is essential reading for all engaged in the care of pregnant women and neonates including obstetricians and neonatologists, postgraduates training for specialist careers, specialist nursing and midwifery staff, and specialists in hospital and community practice with an interest in this rapidly developing field.

FETAL AND MATERNAL MEDICINE REVIEW

VOLUME 10 NUMBER 4 NOVEMBER 1998

Subscriptions

Volume 10 in 1998: February, May, August and November
£96/\$170 for institutions; £56/\$102 for individuals; £40/\$68 for students and members of the BMFMS.
prices include delivery by air ISSN 0965-5395

Instructions to Authors

Zygote will publish original papers on all aspects of early development from gametogenesis to gastrulation. Studies on plants, invertebrates, lower vertebrates, mammals and humans at the molecular and cellular levels will be accepted. Topics include gametogenesis, fertilisation, sperm-egg interaction, activation of gametes, polarity in oocytes and zygotes, cell cycle control, cleavage, cell-cell interactions, and the generation of primary cell lineages. Review articles, short communications and News and Views Commentaries are also welcomed.

To submit a manuscript, send three complete copies, including figures and illustrations either to Brian Dale, Editor-in-Chief, *Zygote*, Stazione Zoologica, 'Anton Dohrn', Villa Comunale, Naples 80121, Italy. Telephone +39 81 5833233, Fax: +39 81 583 3260, E-mail: bdale@alpha.szn.it; or Ryuzo Yanagimachi, Dept. of Anatomy and Reproductive Biology, University of Hawaii Medical School, Honolulu, Hawaii 96822, USA. Telephone: +1 808 9568746, Fax: +1 808 9565474, E-mail: yana@hawaii.edu; or Motonori Hoshi, Dept. of Life Science, Tokyo Institute of Technology, Midori-Ku, Yokohama, 226 Japan. Telephone: +81 45 9230368, Fax: +81 45 9245777, E-mail: mhoshi@bio.titech.ac.jp.

There is no formal restriction on length; however, original articles and reviews of less than 15000 words are likely to appear sooner than longer ones. Short communications should not exceed 1500 words and News and Views Commentaries 500 words.

Manuscripts should be organised as follows: Title page (with full names and addresses of all authors, a running headline of up to 35 characters, and a contact address with telephone and fax numbers), an Abstract of not more than 250 words followed by 5 Keywords, Introduction, Materials and Methods, Results, Discussion (combined Results and Discussion may be used for short papers), Acknowledgements, References, Endnotes, Tables and Figure Legends.

Type double-spaced throughout on one side only and number all pages consecutively. When an article has been accepted for publication, the author is strongly encouraged to send a copy of the final version on computer disk (Apple Macintosh or IBM compatible PC) together with the hard copy typescript, giving details of the wordprocessing software used (Microsoft Word, Word or Word Perfect). However, the publisher reserves the right to typeset material by conventional means if an author's disk proves unsatisfactory. Disks will not be returned.

Manuscripts should be prepared using SI units.

10 Stamford Road, Oakleigh, Melbourne 3166, Australia

Typeset in the United Kingdom by Computape Ltd,
North Yorkshire

Printed in the United Kingdom by Bell & Bain Ltd, Glasgow

Figures should be numbered consecutively as they appear in the text. Mark each figure with the first author's name and figure number on the reverse, and indicate its orientation. Any indication of features of special interest should also be included. Authors should submit three copies of each illustration. Figures should be drawn or produced by computer to about twice the final size. Wherever possible they will be reproduced with the author's original lettering. Photographs should be submitted with proposed reduction or magnification indicated, when relevant, by a scale line on, or beside, the illustration. The places for insertion into the text should be indicated in the text as 'Fig. 1' etc, and in the margin of the typescript for insertion. Legends for all illustrations should be typed together, separately from the main text. A charge will be made for colour photograph reproduction.

Tables with concise headings should be typed on separate sheets and numbered consecutively. Each table must have a text reference, in the form 'Table 1' etc. Indicate where tables are to be placed by means of a note in the margin.

References should be cited in the text as "Conklin (1905) showed" or "as shown (Conklin, 1905)". For papers with three or more authors use "*et al.*". A full list of references in alphabetical order should be given at the end of the text: surname of author and initials; year of publication (in parentheses); title of paper; journal or book name (the former being abbreviated in accordance with the World List of Scientific Periodicals); volume number; first and last page of the reference. For books and conference proceedings, place of publication and publisher (and editor(s) if appropriate) should be included.

Proofs will be sent to the author for checking. Typographical or factual errors only may be changed at proof stage. The publisher reserves the right to charge authors for correction of non-typographical errors.

25 offprints of each article will be supplied free to each first named author. Extra offprints may be purchased from the publisher if ordered at proof stage.

Submission of a paper will be taken to imply that it is unpublished and it is not being considered for publication elsewhere. Authors of articles published in the journal assign copyright to Cambridge University Press (with certain rights reserved) and you will receive a copyright assignment form for signature on acceptance of your paper.

Zygote

The Biology of Gametes and Early Embryos

Volume 6 Issue 1 February 1998

Contents

- Immunohistochemical localisation of a galectin from *Bufo arenarum* ovary
María T. Elola, Marcelo O. Cabada, Gustavo A. Barisone and Nilda E. Fink 1
- Non-specific currents at fertilisation in sea urchin oocytes
Maria Laura De Simone, Lucia Grumetto, Elisabetta Tosti, Martin Wilding and Brian Dale 11
- Ultrastructure of bovine *in vitro*-produced blastocysts cryopreserved by vitrification
Shigeki Ohboshi, Noboru Fujihara, Tatsuyuki Yoshida and Hiroshi Tomagane 17
- Combined immunocytogenetic and molecular cytogenetic analysis of meiosis I oocytes from normal human females
A.L. Barlow and M.A. Hultén 27
- Decondensation of the mouse sperm nucleus within the interphase nucleus
Yasutaka Maeda, Hiroko Yanagimachi, Hiroyuki Tateno, Noriko Usui and R. Yanagimachi 39
- Promotion of follicular antrum formation by pig oocytes *in vitro*
Xiangju Shen, Takashi Miyano and Seishiro Kato 47
- Cortical granule exocytosis is triggered by different thresholds of calcium during fertilisation in sea urchin eggs
John C. Matese and David R. McClay 55
- Nuclear envelope removal/maintenance determines the structural and functional remodelling of embryonic red blood cell nuclei in activated mouse oocytes
Daniel Szöllösi, Renata Czolowska, Ewa Borsuk, Maria S. Szöllösi and Pascale Debey 65
- The polysulphate binding domain of human proacrosin/acrosin is involved in both the enzyme activation and spermatozoa-zona pellucida interaction
R.D. Moreno, M.S. Sepúlveda, A. de Ioannes and C. Barros 75
- Voltage-gated calcium channels in *Pleurodeles* oocytes: classification, modulation and functional roles
Halima Ouadid-Ahidouch 85
