

## THE JOURNAL OF THE AUSTRALIAN INSTITUTE OF AGRICULTURAL SCIENCE

This Journal of the Australian Institute of Agricultural Science is the official publication of agricultural scientists throughout Australia. As such, it presents papers by leading Commonwealth workers in this field. These include reports on original research, and since the Institute considers that the Journal should reflect the agricultural movements of the Commonwealth, authoritative review articles are prominent.

Your interest is invited

## INTERNATIONAL PONY BREEDERS' FEDERATION

*President :* The Rt. Hon. The Earl of Dalkeith

The International Pony Breeders' Federation was formed in 1951 to encourage pony breeding and the use of ponies in agriculture, industry and recreation, and to preserve and protect native breeds.

Membership is open to all pony-breeders and pony lovers (£1 p.a.) and members of breed and other societies (5/- p.a.)

The Federation is organised in zones, with an international Secretary.

Further information can be obtained from :

G. Rae Blakebell,  
6 Grosvenor Crescent,  
Edinburgh,  
Scotland.
