Topic: W03 - Workshop 04: Outcome measurement in routine clinical practice

New IT Possibilities to Enhance the Quality of the Clinical Care Process

C.J. Sleeboom - van Raaij¹

¹Psychiatry, Koninklijke Kentalis, Zoetermeer, Netherlands

In this presentation the use of new technologies are discussed. What is needed to support the clinical care process and how can information technology (IT) help to fit in e.g. measurement instrument, like the HoNOS and OQ, seamlessly in the process. The aim is to make things work more transparent and if possible more efficient and cost-effective. The presenter will show how to overcome the different challenges when IT is used for embedding the above mentioned instruments in clinical practice to enhance the quality of the process.
