

Go Mobile

CJO Mobile (CJOm) is a streamlined
Cambridge Journals Online (CJO)
for smartphones and other
small mobile devices

- Use CJOm to access all journal content including *FirstView* articles which are published online ahead of print
- Access quickly and easily thanks to simplified design and low resolution images
- Register for content alerts or save searches and articles – they will be available on both CJO and CJOm
- Your device will be detected and automatically directed to CJOm via: journals.cambridge.org

Proceedings of the International Astronomical Union

Published for The International Astronomical Union (IAU)

Chair of the IAU Editorial Board

Thierry Montmerle, Institut d'Astrophysique de Paris, France

Proceedings of the International Astronomical Union publishes high-quality and timely previews and reviews of fundamental and state-of-the-art astrophysical developments around the world, as presented at some ten IAU-sponsored conferences per year. Subjects covered are broad, and in the past have included fundamental astronomy; the sun and heliosphere; planetary systems; stars and variable stars; interstellar matter; the galactic system; galaxies and the Universe; optical and infrared techniques; radio astronomy; and space and high-energy astrophysics. The Series is essential reading for both professional astrophysicists and students, for finding comprehensive reviews and for studying new developments in specialised fields.

Geological Magazine

Editors

Mark Allen, University of Durham, UK
Graham E. Budd, University of Uppsala, Sweden
Philip Leat, British Antarctic Survey, UK
Andy Whitham, CASP, University of Cambridge, UK

Geological Magazine, established in 1864, is one of the oldest and best-known periodicals in the Earth Sciences. Its worldwide circulation, broad scope and high production values keep the journal at the forefront of the field. It publishes original papers, review articles, rapid communications and discussions about all aspects of the geosciences. It covers petrology, geochemistry, palaeontology, sedimentology, stratigraphy, structural geology, geophysics, and geomorphology, and it includes contributions on volcanology, marine geology, glaciology, palaeoclimatology, palaeoceanography, geochronology, biostratigraphy, geohazards and Earth history, providing a niche for interdisciplinary papers on regional geology and Earth history.

Polar Record

A Journal of Arctic and Antarctic Research

The official journal of the Scott Polar Research Institute

Editor-inChief

Ian R. Stone, Scott Polar Research Institute, Cambridge, UK

Polar Record is the premier international, peer-reviewed, scholarly journal, publishing articles on a wide variety of areas of polar research in both the Arctic and the Antarctic and keeping its readers up-to-date with an extensive range of topics and concerns. The journal includes original primary research papers in the physical sciences, life sciences, polar technology, humanities, and social sciences, as well as papers concerning current political, economic, legal, and environmental issues. *Polar Record* provides rapid publication, normally within nine months of the initial submission.

Antarctic Science

Published on behalf of Antarctic Science Ltd, Cambridge

Editors

David W. H. Walton, British Antarctic Survey, Cambridge, UK
Alan P. M. Vaughan, British Antarctic Survey, Cambridge, UK
Christina L. Hulbe, Portland State University, USA

Antarctic Science provides a truly international forum for the broad spread of studies that increasingly characterize scientific research in the Antarctic. The journal attracts papers from all countries currently undertaking Antarctic research. Whilst emphasising interdisciplinary work, the journal publishes papers from environmental management to biodiversity, from volcanoes to icebergs, and from oceanography to the upper atmosphere. No other journal covers such a wide range of Antarctic scientific studies.

The Journal of Navigation

Published on behalf of
The Royal Institute of Navigation

Editor

Norman Hughes, OBE, The Royal Institute of Navigation, UK

The Journal of Navigation contains original papers on the science of navigation by man and animals over land and sea and through air and space, including a selection of papers presented at meetings of the Institute and other organisations associated with navigation. Papers cover every aspect of navigation, from the highly technical to the descriptive and historical. Subjects include electronics, astronomy, mathematics, cartography, command and control, psychology and zoology, operational research, risk analysis, theoretical physics, operation in hostile environments, instrumentation, ergonomics, financial planning and law. The journal also publishes selected papers and reports from the Institute's special interest groups. Contributions come from all parts of the world.

CAMBRIDGE
UNIVERSITY PRESS

AIMS AND SCOPE

International Journal of Astrobiology publishes original papers and review articles on Astrobiology Science. News of interest to the astrobiology community and book reviews will also feature. Contact one of the editors if you have questions regarding suitability of a subject area, news submission or book review.

The fields covered include:

- * Cosmic prebiotic chemistry
- * Planetary evolution
- * Search for planetary systems and habitable zones
- * Origins, evolution and distribution of life
- * Extremophile biology and experimental simulation of extraterrestrial environments
- * Life detection in our solar system and beyond
- * Technologies and space missions for astrobiology, and planetary protection
- * Human expansion, ecosystems beyond Earth and terraforming
- * Ecosystems beyond Earth
- * Intelligent life and societal aspects of astrobiology

There are no page charges or length restrictions. All articles are submitted to peer-review.

SUBMISSION OF MANUSCRIPTS

Contributions for consideration for publication should be submitted via our online website at http://mc.manuscriptcentral.com/submit_ija

During the submission process authors will be asked to select an appropriate Editor for their paper. Areas of interest for the Editors are as follows:

Dr. Simon Mitton – General Papers, Philosophy, Astronomy

Dr. Rocco Mancinelli – Extremophiles, Microbiology, Nitrogen Cycling

Dr. Frances Westall – Origin of Life in a Geological Context, Search for Life on Mars, Biosignatures of Early Earth Sediments.

The *initial* submission should preferably be in Word or PDF format. If your paper is accepted you will need to submit a Word document with illustrations as separate eps or tif files. LateX files can also be accepted for the final version; however a PDF must also be supplied for printing.

For papers with high resolution figures or micrographs please *also* submit a hard copy version – in colour if appropriate. Black and White halftones and colour illustrations have to be scanned at a high resolution (minimum 300dpi). For very large files contact our production department for further instruction.

Please consult our full Instructions for Contributors at journals.cambridge.org/ija

CONTENTS

Preface

- 137 **Astrobiology field research in Moon/Mars analogue environments**

B.H. Foing, C. Stoker & P. Ehrenfreund

Research papers

- 141 **Field astrobiology research in Moon–Mars analogue environments: instruments and methods**
B.H. Foing, C. Stoker, J. Zavaleta, P. Ehrenfreund, C. Thiel, P. Sarrazin, D. Blake, J. Page, V. Pletser, J. Hendrikse, S. Direito, J.M. Kotler, Z. Martins, G. Orzechowska, C. Gross, L. Wendt, J. Clarke, A.M. Borst, S.T.M. Peters, M.-B. Wilhelm, G.R. Davies & ILEWG EuroGeoMars 2009 Team
- 161 **Concretions in exhumed and inverted channels near Hanksville Utah: implications for Mars**
Jonathan D.A. Clarke & Carol R. Stoker
- 177 **PCR-based analysis of microbial communities during the EuroGeoMars campaign at Mars Desert Research Station, Utah**
Cora S. Thiel, Pascale Ehrenfreund, Bernard Foing, Vladimir Pletser & Oliver Ullrich
- 191 **A wide variety of putative extremophiles and large beta-diversity at the Mars Desert Research Station (Utah)**
Susana O.L. Direito, Pascale Ehrenfreund, Andries Marees, Martijn Staats, Bernard Foing & Wilfred F.M. Röling
- 209 **Analysis of Mars analogue soil samples using solid-phase microextraction, organic solvent extraction and gas chromatography/mass spectrometry**
G.E. Orzechowska, R.D. Kidd, B.H. Foing, I. Kanik, C. Stoker & P. Ehrenfreund
- 221 **Analysis of mineral matrices of planetary soil analogues from the Utah Desert**
J.M. Kotler, R.C. Quinn, B.H. Foing, Z. Martins & P. Ehrenfreund
- 231 **Extraction of amino acids from soils close to the Mars Desert Research Station (MDRS), Utah**
Z. Martins, M.A. Sephton, B.H. Foing & P. Ehrenfreund
- 239 **Astrobiology and habitability studies in preparation for future Mars missions: trends from investigating minerals, organics and biota**
P. Ehrenfreund, W.F.M. Röling, C.S. Thiel, R. Quinn, M.A. Sephton, C. Stoker, J.M. Kotler, S.O.L. Direito, Z. Martins, G.E. Orzechowska, R.D. Kidd, C.A van Sluis & B.H. Foing
- 255 **Human crew-related aspects for astrobiology research**
Cora S. Thiel, Vladimir Pletser & Bernard Foing
- 269 **Mineralogical, chemical, organic and microbial properties of subsurface soil cores from Mars Desert Research Station (Utah, USA): Phyllosilicate and sulfate analogues to Mars mission landing sites**
Carol R. Stoker, Jonathan Clarke, Susana O.L. Direito, David Blake, Kevin R. Martin, Jhony Zavaleta & Bernard Foing
- 291 **Multidisciplinary integrated field campaign to an acidic Martian Earth analogue with astrobiological interest: Rio Tinto**
F. Gómez, N. Walter, R. Amils, F. Rull, A.K. Klingelhöfer, J. Kviderova, P. Sarrazin, B. Foing, A. Behar, I. Fleischer, V. Parro, M. Garcia-Villadangos, D. Blake, J.D. Martin Ramos, S. Direito, P. Mahapatra, C. Stam, K. Venkateswaran & M. Voytek
