

Guidelines for Submission of Manuscripts

Contributors of manuscripts which closely adhere to the following guidelines will receive prompt and efficient consideration.

1. **Cover letter.** Indicate (a) why the manuscript would interest *JAAE* readers; (b) whether material in the manuscript, in whole or in part, has been submitted for publication elsewhere; and (c) that the material in the manuscript does not infringe upon other published material protected by copyright.
2. **Cover page.** The *JAAE* uses a system of blind reviews. Thus, all copies of the manuscript should have a removable cover page that provides the authors' names and institutional affiliations. Materials for review should not identify the authors.
3. **Format.** Manuscripts should be typed on good quality 8 1/2" by 11" paper with 1.25" margins. Use 12-point Times Roman or a similar type style and size. Double space all material throughout the manuscript, including the abstract, acknowledgments, footnotes, references, and tables. Type only on one side of the paper and do not use right-margin justification.
4. **Abstract.** On a separate page, include an abstract not to exceed 100 words, followed by no more than eight key words or short phrases, listed in alphabetical order.
5. **Footnotes.** Number footnotes consecutively throughout the manuscript. Type the content of the footnotes on separate pages placed immediately after the main text. Footnotes should not be used for citations or directives to other literature. Reference citations should be incorporated into the text.
6. **Tables.** Place each table on a separate page at the end of the text, immediately following the last footnote page.
7. **References.** Place all references, cited in the text, alphabetized by author's last name on separate pages after the text, immediately following the last table page. Citations may appear parenthetically or as part of the text. Within the text, use parentheses rather than brackets for citations. Spell out up to three author last names; for works with four or more authors, include only the first author followed by "et al." When citing a direct quote, include page number(s). Do not specify the publication year unless there is more than one reference by the same author(s).
8. **Figures.** Place each figure, chart, or graph on a separate page immediately following the last reference page.
9. **Mathematical formulation.** Use Arabic numbers enclosed in parentheses placed flush left on the first line of the equation. Number equations consecutively throughout the manuscript. Indent the equation after the equation number. Punctuate all mathematical material.
10. **Publication costs.** Authors submitting manuscripts are expected to assume obligation for payment of page charges. Page charges currently are \$65 per printed page.
11. **Copyright.** The *JAAE* is copyrighted. Authors are required to sign a release form which will prohibit publication of material contained in the article elsewhere unless specific permission is granted by the editors.
12. **Copies.** Send four clean copies to:
