Aboriginal and Spanish Colonial Trinidad

A Study in Culture Contact

Linda A. Newson

August 1976, x + 344pp.

£9.80 / \$24.75 0.12.517450.0

When Trinidad was discovered by Columbus in 1498, the island was inhabited by essentially egalitarian tropical rain-forest tribes, who lived on the products of shifting cultivation, hunting, fishing and collecting. This book is a detailed study, based on primary archival and archaeological sources, of the cultural changes that occurred in Trinidad under Spanish colonial rule, resulting in the replacement of the indian subsistence economy by commercial agriculture, and the emergence of a multiracial stratified society.

Few studies on the impact of Spanish colonialism have looked, as this does, at geographically remote areas of the Empire, or have compared the effects of different institutions, such as the *encomienda* and the mission, on an indigenous population. Although this study is for practical reasons non-comparative, it is hoped that it will be able to identify cultural patterns and processes that are paralleled in other parts of the Spanish Empire and as such throw light on the culture-contact process in general.

Contents

Introduction. Methods and sources. Aboriginal Trinidad. The indian occupation of the island. Trinidad on the eve of discovery. Spanish Discovery and Conquest 1498–1592. Mexico and the United States in the Oil Controversy, 1917-1924

Translated by MURIEL VASCONCELOS

This book explores the relationship between the U.S. and Mexico during the first half of the twentieth century, with special attention to the Mexican nationalisation of the oil industry. This work not only describes the political and economic struggle between the Mexican government and the U.S. oil companies but also serves to illustrate in general the nature of dependency between Latin American countries and the U.S. It will be of interest not only to Mexican specialists but also to diplomatic and economics historians.

The Maya of Guatemala

Their Life and Dress

CARMEN L. PETERSEN

The Maya Quiche Indian of Guatemala is pictured here as he lives today against the background of his long history and continuing struggle to retain his customs and integrity. With the informative text printed in both English and Spanish, the author has provided vivid portraits not only of the splendid Mayan garments and weaving but of the Mayan himself—what he looks like and how he lives.

Religion and Revolution in Peru, 1824-1976

JERFFREY L. KLAIBER

The aim of this study is to examine the interaction between the religious world views of the reformist elite and the Peruvian lower classes from the time of independence in 1824 up to and including the reformist military government that took power in 1968. It presents an interpretive overview of how the integration of reformist politics and popular religious beliefs has altered the outlook of many Peruvians in their modern history.

New Books on Latin America

Race and Class in Colonial Oaxaca

John K. Chance. The central concern of this study of changing social stratification in the city of Oaxaca is the development and function of the *sistema de castas*—the system of ranked ethnic statuses, encoded in Spanish law, that emerged in response to the growth of the New World's racially mixed population. Rejecting previous interpretations of the system, the author uses a wealth of new anthropological and historical data to demonstrate that it was far from static throughout the three centuries of colonial rule, and much less rigid than commonly supposed. \$14.00

Minas Gerais in the Brazilian Federation, 1889–1937

John D. Wirth. This is the first of three independent but coordinated studies on Brazilian regionalism from the beginning of the Republic to the establishment of Getulio Vargas' Estado Novo in 1937. The author analyzes the complex social and political structure of Minas Gerais, with an emphasis on the role of political elites who, while wielding great political influence, found it difficult to attain regional coherence in the face of the powerful economic forces that drew the state toward Sao Paulo. \$17.50

NOTES FOR CONTRIBUTORS

Journal of Latin American Studies is published twice a year under the academic sponsorship of the Centres or Institutes of Latin American Studies at the Universities of Cambridge, Glasgow, Liverpool, London and Oxford.

The scope of the journal is the study of Latin America from the standpoint of the social sciences, including anthropology, archaeology, economics, geography, history, international relations, politics, sociology, etc., though it is not concerned with linguistic or literary studies.

Editorial policy avoids commitment to any political viewpoint or ideology, but welcomes free discussion of such issues in the Latin American context, on the understanding that all responsibility for opinions expressed rests exclusively with the author concerned and not with either the journal or its editors.

Contributions are invited from all parts of the world. Articles should generally not be more than 8,000 words long, and two copies, typed with double-spacing, should be submitted. Diagrams and maps may be included by arrangement with the editors. The journal is published in English, but articles written in other languages may be considered, and arrangements made as required for translation into English. Contributors should keep one copy of the typescript for use in correcting proofs.

All contributions and editorial correspondence should be addressed to *Journal of Latin American Studies*, Institute of Latin American Studies, 31 Tavistock Square, London, WC1H 9HA.

Each contributor will receive, free of charge, 25 offprints of their article and a copy of the issue of the journal in which it appears.
