### INTERNATIONAL CONGRESS OF AUDIOLOGY

The Seventh International Congress of Audiology will take place in Copenhagen, August 26th-29th, 1964.

The main topics of the Congress will be: (1) Binaural hearing; (2) The acoustic impedance of the ear; (3) Modifications of speech audiometry.

---

### CALIBRATION OF AUDIOMETERS

An announcement under this heading has appeared in the past eight numbers of this Journal. This contained an inaccurate statement to the effect that there was no existing audiometer calibration service in England and Wales before the formation of this new service by the Royal National Institute for the Deaf.

The Editor very much regrets publishing this inaccurate statement. Messrs. Amplivox have, in fact, been running an audiometer calibration service for the past fifteen years. We offer our sincere apologies to Messrs. Amplivox for overlooking their valuable and well known service.
