design and applied arts index on CD-ROM

We challenge anyone to find a more user-friendly arts journal index!

Sample entry:

The screenshot shows the 'designandappliedartsindex on CD-ROM' interface. At the top, there is a menu bar with icons for 'Start Menu', 'Run the Tutorial', 'Search for Articles', 'View as Card', 'Print', 'Save to disk', and 'Exit daai'. Below the menu, there is a checkbox labeled 'Click in box: to choose those articles you wish to Print or Save to disk'. The main content area displays an article entry for Philippe Starck, including author, title, reference, and language information. A scrollable text box below provides a detailed profile of Starck and a list of his works. At the bottom, there are navigation controls including a search field and a reference counter showing '8 of 10'.

Long recognised as the principal source on current trends in design and the applied arts worldwide, *design and applied arts index* is now also available on CD-ROM, making it an indispensable resource not only for students, historians and librarians, but also for working designers and craftspeople.

daai on CD-ROM contains over 100,000 annotated references from more than 400 design and craft journals published between 1973-1997, making it the largest database of its kind in the world. It also includes data on nearly 40,000 designers, craftspeople, studios, workshops, firms etc.

At least 10,000-12,000 new references are added annually.

Special Features of daai on CD-ROM

daai on CD-ROM has a number of unique special features. These include:

- Four supplementary databases - international directories of design and craft courses, design and craft organisations, design and craft periodicals and design and craft archives
- A simple one-stop search facility
- An on-screen tutorial
- Search screen texts in English, French and German
- Glossaries in French and German of the key terms used in *daai on CD-ROM*
- A text-to-talk facility - the text can be read to you - a feature of value to partially-sighted and dyslexic users
- An Internet link to Web sites on *daai on CD-ROM*. The latest issue contains nearly 1,000 Internet links
- In-built networking, which will allow you to share *daai on CD-ROM* with other users, without needing a file-server on your network

If you would like to know more about daai on CD-ROM contact us or visit our Web site
