CORRIGENDUM
to the paper
ON A PROBLEM OF RANKIN ABOUT THE EPSTEIN ZETA-FUNCTION †

by J. W. S. CASSELS

(Received 28 December, 1962)

Dr V. O. Ennola has pointed out that there is a mistake in this paper. The inequality for $d_0 x$ at the foot of page 76 does not imply the stated inequality between the second and third lines on page 77. This error vitiates the entire argument, and I have not so far been able to put it right.

† Vol. 4 (1959), 73–80.
