

THE MARINE BIOLOGICAL ASSOCIATION OF THE UNITED KINGDOM

TERMS OF MEMBERSHIP FOR 2011

Annual members, receiving the Journal – online only, per annum	£55.00*
Annual members, receiving the Journal – print only, per annum	£95.00*
Annual members, receiving the Journal – print and online, per annum	£115.00*
Annual members, without the Journal, per annum	£35.00*
Corporate members, receiving the Journal – online only, per annum	£360.00
Corporate members, receiving the Journal – print and online, per annum	£425.00
Student members, with the Journal – online only, per annum (non-voting)	£30.00
Student members, with the Journal – print only, per annum (non-voting)	£45.00
Student members, without the Journal, per annum (non-voting)	£20.00

The Association is a registered charity and was founded in 1884 to promote accurate researches leading to the advancement of zoological and botanical science and to increase our knowledge of the food, life, conditions and habits of British fish. The work of the Association is controlled by the Council elected annually by its subscribing members.

The Marine Biological Association, under the direction of its Council, has undertaken research in all branches of marine science and many of the results have been published in this Journal. An account of the history of the first hundred years of the Association and Journal may be found in Volume 67 (pp. 463 and 465). Summaries of the activities and research of the Association are given annually in the Report of the Council, sent to members in April, and to other subscribers with a later issue of the *JMBA*.

Since its foundation the Association has been supported by grants from Research Councils and by subscriptions and donations from private members, universities, learned societies, the Fishmongers' Company and other public bodies.

The Plymouth Laboratory was opened in June 1888 and, since that date, considerable additions have been made to the buildings, including a library, resource centre, extensive laboratory accommodation and seawater facilities.

In 1988 an agreement was reached between the MBA Council and the Natural Environment Research Council (NERC) to merge a large part of the Plymouth Laboratory with the NERC's Institute for Marine Science which had been in Plymouth since 1971. This new institute was called the Plymouth Marine Laboratory (PML) based at both Citadel Hill and West Hoe sites. In 2001 the MBA and PML re-established separate identities funded by Grants-in-aid from NERC. The Association and the research programme are based entirely at the Citadel Hill Laboratory. The building is shared with SAHFOS (Sir Alister Hardy Foundation for Ocean Science). The research organizations are part of the Plymouth Partnership

which includes PML, the University of Plymouth and the NMA (National Marine Aquarium). Active collaboration and shared resources mutually enhance the marine research programmes of the participants.

The Marine Biological Association retains the lease of the building on Citadel Hill and continues as a very active scientific learned society with a large international membership. The MBA manages a research programme carried out by research fellows (partly funded by NERC) together with scientific visitors, publishes an International Journal, Annual Report, Newsletters and organizes scientific meetings.

Subscriptions can be paid by cash/cheque, direct debit from a UK bank account or credit card. *Subscriptions are reduced by £5 per annum if paying by direct debit.

Members of the Association have the following rights and privileges: they elect the Officers and Council annually; they are entitled to receive the Journal of the Association at the members' rate; they receive the biannual Newsletter; they have the option to apply to the Director for research facilities at the laboratory; and they have access to the resources in the library at Plymouth during working hours. Corporate members have significant additional rights and privileges, details of which can be supplied on request. Student members do not have voting rights. The Commissioners of Inland Revenue have approved the Association for the purposes of Section 16, Finance Act, 1958, and that the whole of the annual subscriptions paid by a member who qualifies for relief under the section will be allowable as a deduction from his emoluments assessable to income tax.

All correspondence should be addressed to: The Membership Secretary, Marine Biological Association, The Laboratory, Citadel Hill, Plymouth, PL1 2PB, UK (Tel: +44 (0) 1752 633207; Fax: +44 (0) 1752 633102; e-mail: membership@mba.ac.uk).

CONTENTS

ECOLOGY, MORPHOLOGY AND BIOMARKERS

- JACOBUCCI, G.B., GÜTH, A.Z., TURRA, A. & LEITE, F.P.P. Influence of a narrow depth gradient and season on the morphology, phenology, and epibiosis of the brown alga *Sargassum cymosum* 761
- BALKIS, N., ATABAY, H., TÜRETGEN, I., ALBAYRAK, S., BALKIS, H. & TÜFEKÇİ, V. Role of single-celled organisms in mucilage formation on the shores of Büyükada Island (the Marmara Sea) 771
- CARTES, J.E. Temporal changes in lipid biomarkers, especially fatty acids, of the deep-sea crustaceans *Boreomysis arctica* and *Nematoscelis megalops*: implications of their biological cycle and habitat near the seabed 783
- CARVALHO, F.L. & COUTO, E.C.G. Environmental variables influencing the *Callinectes* (Crustacea: Brachyura: Portunidae) species distribution in a tropical estuary—Cachoeira River (Bahia, Brazil) 793
- NISHIDA, S. & NONOMURA, T. Structure of novel exocrine glands in *Calanus* species with notes on their possible function 801
- CAMARILLO-COOP, S., SALINAS-ZAVALA, C.A., MANZANO-SARABIA, M. & ARAGÓN-NORIEGA, E.A. Presence of *Dosidicus gigas* paralarvae (Cephalopoda: Ommastrephidae) in the central Gulf of California, Mexico related to oceanographic conditions 807
- GORDILLO, S., MÁRQUEZ, F., CÁRDENAS, J. & ZUBIMENDI, M.A. Shell variability in *Tawera gayi* (Veneridae) from southern South America: a morphometric approach based on contour analysis 815
- ALLEN, J.A. On the functional morphology of *Pinna* and *Atrina* larvae (Bivalvia: Pinnidae) from the Atlantic 823

FEEDING, GROWTH AND REPRODUCTION

- GASS, S.E. & ROBERTS, J.M. Growth and branching patterns of *Lophelia pertusa* (Scleractinia) from the North Sea 831
- SAL MOYANO, M.P., GAVIO, M.A. & MAGGI, M.D. Morphometric and gonad maturity of the spider crab *Libinia spinosa* (Crustacea: Brachyura: Majoidea: Epialtidae) in Argentina 837
- BURRIS, Z.P. Larval morphologies and potential developmental modes of eight sea spider species (Arthropoda: Pycnogonida) from the southern Oregon coast 845
- HUNT, K.V., STEER, M.A. & GILLANDERS, B.M. Validating age in southern calamary (*Sepioteuthis australis*) over seasonal and life history extremes 857
- REUNOV, A. & CRAWFORD, B. An investigation of ECM secreting structures in the gastrula of the starfish *Pisaster ochraceus* 865
- VASILAKOPOULOS, P., PAVLIDIS, M. & TSERPES, G. On the diet and reproduction of the oilfish *Ruvettus pretiosus* (Perciformes: Gempylidae) in the eastern Mediterranean 873
- OSTERRIEDER, S.K. & DAVIS, R.W. Sea otter female and pup activity budgets, Prince William Sound, Alaska 883

COMMENSALS AND PARASITES

- HASEGAWA, H., WADA, S., AOKI, M. & WADA, K. Regional variation in preference for gastropod shell species in the hermit crab *Pagurus filholi* 893
- SCHJEJTER, L., ESCOLAR, M. & BREMEC, C. Variability in epibiont colonization of shells of *Fusitriton magellanicus* (Gastropoda) on the Argentinean shelf 897
- FERMER, J., CULLOTY, S.C., KELLY, T.C. & O'RIORDAN, R.M. Manipulation of *Cerastoderma edule* burrowing ability by *Meiogymnophallus minutus* metacercariae? 907
- BORDALO, M.D., FERREIRA, S.M., JENSEN, K.T. & PARDAL, M.A. Trematode fauna of *Hydrobia ulvae* (Gastropoda: Prosobranchia) in a eutrophic temperate estuary 913
- FERMER, J., CULLOTY, S.C., KELLY, T.C. & O'RIORDAN, R.M. Parasitological survey of the edible cockle *Cerastoderma edule* (Bivalvia) on the south coast of Ireland 923

FISHERIES

- MARTINS, G.M., JENKINS, S.R., HAWKINS, S.J., NETO, A.I., MEDEIROS, A.R. & THOMPSON, R.C. Illegal harvesting affects the success of fishing closure areas 929
- DURÁN MUÑOZ, P., MURILLO, F.J., SAYAGO-GIL, M., SERRANO, A., LAPORTA, M., OTERO, I. & GÓMEZ, C. Effects of deep-sea bottom longlining on the Hatton Bank fish communities and benthic ecosystem, north-east Atlantic 939
