

# Microscopy TODAY

## 2011-2012 Buyers' Guide

https://doi.org/10.1017/S1551929511001015 Published online by Cambridge University Press

# True system integration.

Electron microscopy laboratories seek maximum productivity and accuracy from microanalysis. Systems need to be intuitive, easy to use and eliminate operator bias. Our long history of innovation has led to the first truly integrated microanalysis system, providing the optimal combination of **EBSD, WDS and EDS detectors**, software and electronics. Collect large amounts of data in the shortest amount of time. Identify phases confidently with a minimum amount of spectra. Move seamlessly through your analysis with one common interface.

## Fast. Easy. Precise. Microanalysis.

## Welcome to the **Microscopy** TODAY Buyers' Guide.

The guide is published in print and online at [www.microscopy-today.com](http://www.microscopy-today.com). For such a guide to be truly useful, it must be comprehensive. Thus, the editors have assembled an index listing hundreds of products listed under more than 300 keywords.

### HOW TO USE THIS GUIDE:

**Print version:** (1) Look up the product type in the **Products and Services Index**.  
(2) View the product descriptions in the **Microscopy Product Vendors** section.  
(3) Ascertain the company's scope at the **Company Profile** section.  
(4) View more complete product descriptions at the company website.

**Online version:** (1) Go to [www.microscopy-today.com](http://www.microscopy-today.com).  
(2) Click on "Buyers' Guide."  
(3) View an exact replica of the Buyers' Guide, or use the search box to find a particular kind of product.

### To companies not listed in this guide:

To list your company and promote your products in our next edition, please contact Amy Reuter at [areuter@mrsvica.com](mailto:areuter@mrsvica.com) or 856-768-9360.

This publication is a supplement to *Microscopy Today*. It is published by Cambridge University Press for the Microscopy Society of America, a not-for-profit society dedicated to the promotion of microscopy and microanalysis.

# A perfect 10<sup>-9</sup>

... is only possible with perfect EM  
sample preparation.

No matter what type of imaging instrument you use; TEM, SEM, LM, Confocal or AFM, the ultimate quality of the image comes from high-quality sample preparation. Leica Microsystems has a full range of innovative instrumentation to deliver perfect preparation for all sample materials.

- Sectioning
- Processing
- Staining
- Planing
- Target Polishing
- Ion Milling
- Contrasting
- High Pressure Freezing
- Cryoprocessing and Transfer
- Coating and Drying

A **perfect 10<sup>-9</sup>**! See the difference Leica Microsystems quality can make for you.
